Increasing Height of Electrical Signs on Roofs.

The following Bill heretofore recommended to the Electricity Committee was taken up:

Bill No. 1458, Ordinance No. — (New Series), entitled, "Amending Section 10 of Ordinance No. 1909 (New Series), entitled, "Regulating the construction, erection and maintenance of signs, transparencies, advertisements, bulletin boards and clocks on or about buildings or over public streets and

thoroughfares, and providing for the inspection of the same", the provisions of which increase the height to which electrical signs may be erected on roofs from ten feet to thirty feet.

Privilege of the Floor.

F. E. Meyers, attorney representing Electrical Contractors Association, was granted the privilege of the floor and addressed the Board stating that the present height limitation prevented many merchants from using electrical signs as a means of advertising and that the adoption of the amendment would give a great deal of work to men engaged in electrical sign business. He declared that eastern cities were much more liberal in this regard, permitting signs to a much greater height.

Passed for Printing.

Whereupon, the above Bill was, on motion of Supervisor Deasy, *passed for printing*.

Adopted.

The following resolutions were introduced under suspension of the rules and *adopted*:

Clerk to Advertise for Meats to be Supplied Various City Institutions and to Hold Responsible American Bonding Company and Schrader Bros. for Failure to Live Up to Contract.

Resolution No. 6630 (New Series).
Whereas, By Resolution No. 6117 (New Series) of the Board of Supervisors, approved June 29, 1910, a contract was awarded to Schrader Brothers to supply the certain following meats, in accordance with specifications therefor, to the various departments of the City and County of San Francisco, during the fiscal year commencing July 1, 1910, and ending June 30, 1911, in compliance with Section 1, Article II, Chapter III of the Charter, to wit:

Beef, Specification A, at \$0.0738 per pound.

Beef, Specification B, at \$0.0448 per pound.

Meats, Loins, etc., at \$0.1045 per pound.

Beef, corned, at \$0.0548 per pound. (Specified by number in schedule in aforesaid resolution of award.)

And Whereas, Notice has been filed in the office of the Board of Supervisors by the public institutions requiring such supplies setting forth the failure of Schrader Brothers, by reason of their failure in business, to supply said meats in accordance with their contract, and

Whereas, The said Schrader Brothers have filed in the office of the Board of Supervisors a bond in the sum of \$10,000.00, with the American Bonding Company as surety, and

Whereas, Oral notice was given to

said surety by the Clerk of this Board on the 13th day of September, 1910, followed by notice in writing on the 15th day of September, 1910, of the failure of said Schrader Brothers to comply with the terms of their contract, and

Whereas, It is necessary that the various public institutions require such meats to be delivered to them daily and weekly and it is impossible for such institutions to be so supplied without purchasing such meats in the open market and at great cost to the City; now therefore be it

Resolved, That, in accordance with Section 5, Article II, Chapter III of the Charter, the Clerk of this Board be and he is hereby directed to advertise a proposal notice inviting bids for the furnishing and supplying of the following meats, to wit:

Beef, Specification A.

Beef, Specification B.

Meats, loins, etc.

Beef, corned.

during the balance of the fiscal year ending June 30, 1911, the said articles constituting the supplies which said Schrader Brothers are unable to furnish in accordance with the terms of their contract, and be it

Further Resolved, That the said Schrader Brothers and the American Bonding Company, their surety, be and are hereby held responsible by the City and County for all loss and damage that the City and County of San Francisco may suffer by reason of the failure of Schrader Brothers to comply with the terms and conditions of said contract, and be it further

Resolved, That the Clerk of this Board be and is hereby directed to serve a certified copy of this Resolution upon said Schrader Brothers and the American Bonding Company, their surety.

Ayes—Supervisors Cullen, Deasy, Harris, Healy, Herget, Hooks, Kelly, Knowles, Loughery, McLaughlin, Minehan, Murdock, Nelson, O'Dowd, Pugh, Walsh.

Extension of Franchise of Ocean Shore Railroad Company.

Supervisor Herget introduced the following:

Bill No. 1486, Ordinance No. — (New Series). An ordinance amending Section 7 of an ordinance entitled "Ordinance No. 1623, providing for a grant to the Ocean Shore Railway Company, a railroad corporation, of a right of way for and the right to construct, maintain and operate a railroad, together with all necessary branches, sidetracks, turnouts, switches, crossings, spur tracks, yard tracks, depot tracks and terminal tracks and facilities, along, over, under, across

and upon certain streets, avenues, alleys, places and properties, in the City and County of San Francisco," approved October 5, A. D. 1905.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That Section 7 of an ordinance entitled "Ordinance No. 1623, providing for a grant to the Ocean Shore Railway Company, a railroad corporation, of a right of way for and the right to construct, maintain and operate a railroad, together with all necessary branches, sidetracks, turnouts, switches, crossings, spur tracks, yard tracks, depot tracks and terminal tracks and facilities, along, over, under, across and upon certain streets, avenues, alleys, places and properties, in the City and County of San Francisco," approved October 5, A. D. 1905, be and the same hereby is amended so as to read as follows, viz.:

"Section 7. Said Ocean Shore Railway Company must commence the construction of the line of its said railroad hereinbefore authorized and hereinbefore described, within one year from the passage of this Ordinance, and fully complete the same within ten (10) years from the date of such passage, but the construction of a single track upon, over, under or across the said streets or portions of streets upon the route thereof, hereinbefore described, shall be deemed to be a sufficient compliance with this requirement. In case of failure or neglect on the part of said company to commence and complete said work within the time herein specified, all rights and privileges hereby granted, and this franchise, shall cease and determine as to such portion of the said line of said railroad as may then remain uncompleted."

Privilege of the Floor.

Burk Corbet, Secretary of the Ocean Shore Railroad Company was granted the privilege of the floor and addressed the Board, stating that the Ocean Shore Railroad Company had met with many setbacks since the franchise was granted, especially after the earthquake and fire in 1906, and during the subsequent panic and commercial depression. He stated that there was twenty-six more miles of route No. 3 running between San Francisco and Santa Cruz to be completed, and that if the extension requested of the franchise of route No. 2 was granted, work would be commenced on said route as soon as the line to Santa Cruz was completed. He declared further that the company was in process of reorganization, and had at the present time good financial backing to insure its success.

Dourney Harrey, President of the Ocean Shore Railroad Company, was also granted the privilege of the floor and addressed the Board, stating that the Ocean Shore Railroad Company was willing and ready to stipulate that the cars of a municipal railroad might traverse the route of the Ocean Shore Railroad Company in the Richmond District if such stipulation was required by the Board of Supervisors. He also stated that the Ocean Shore Railroad Company was being re-organized with sufficient financial backing to insure its success.

A. C. Campbell, representing the Oceanside Promotion Association, opposed the granting of the extension of the franchise, declaring that the people in the Oceanside District were almost unanimously opposed to a commercial railroad running through the resident section at Oceanside.

Geo. L. Leonard, Assistant Manager of the Urban Realty Company, favored the granting of an extension of the franchise over route No. 2. He stated that the construction of the road would greatly enhance property values adjacent thereto and would afford means for the development of a large portion of San Francisco County now almost inaccessible. He declared that the people who are now opposing the extension of the franchise were the very ones who signed the petition in its favor when it was originally granted.

Chas. Stoltz, property owner, addressed the Board, stating that he was the owner of a 200-foot frontage along the route of Ocean Shore Railroad Company, and that he felt that his property would be irreparably damaged by the extension of the franchise.

Passed for Printing.

Whereupon, the above Bill was, on motion of Supervisor McLaughlin, passed for printing by the following vote:

Ayes—Supervisors Cullen, Deasy, Harris, Healy, Herget, Hocks, Kelly, Knowles, Longbery, McLaughlin, Minahan, Murdock, Nelson, O'Dowd, Pugh, Walsh—16.

Motion.

Supervisor Walsh moved that the matter of granting the extension of a franchise on route No. 2 of the Ocean Shore Railroad Company be referred to the City Attorney for an opinion as to whether or not such action by Board would interfere with any rights the City may have to use "C" street for a municipal road.

Motion carried by the following vote:

Ayes—Supervisors Cullen, Deasy, Healy, Herget, Hocks, Kelly, Knowles, Longbery, McLaughlin, Minahan, Murdock, Nelson, O'Dowd, Pugh, Walsh—15.

Referred.

The following bill was introduced by Supervisor Murdock and, on his motion, ordered *referred to the Streets, Sewers and Parks Committee*:

Changing the Names of Certain Streets.

Bill No. 1187, Ordinance No. — (New Series), entitled "Changing the names of certain streets," the provisions of which change the name of Schiller street to DeLong street, Merced avenue to Mono avenue, West Railroad avenue to Code street, East Railroad avenue to San Ramon avenue.

Adopted.

The following resolutions were introduced under suspension of the rules and *adopted*:

Masquerade Ball Permit.

On motion of Supervisor O'Dowd.

Resolution No. 6631 (New Series), as follows:

Resolved, That Golden City Rebekah Lodge No. 304 be and is hereby granted permission to hold a masquerade ball in Odd Fellows Building, corner of Seventh and Market streets, on Tuesday evening, September 27, 1910, without the payment of the usual license fee, it being understood that the proceeds of said ball are to be paid into the Sick Fund of the organization.

Ayes—Supervisors Cutten, Deasy, Healy, Herget, Hooks, Kelly, Knowles, Loughery, McLaughlin, Minehan, Murdock, Nelson, O'Dowd, Pugh, Walsh—15.

Rescinding Action of Charter Amendment No. 26.

Supervisor O'Dowd presented:

Resolution No. — (New Series), as follows:

Resolved, That Charter Amendment No. 26, proposing an amendment to the Charter of the City and County of San Francisco, by amending Section 4 of Article XVI relating to the holding of more than one office or employment, adopted by this Board on the thirty-first day of August, 1910, be and the same is reconsidered, and its adoption set aside and rescinded and the said amendment be not submitted to the electors at the election called on the 15th day of November, 1910; that the Clerk of this Board be directed to discontinue the publication of said amendment, and the Board of Election Commissioners are hereby directed not to print upon the ballot to be used at said election any reference, or matter relating to said amendment No. 26.

Privilege of the Floor.

J. C. Schulman was granted the privilege of the floor and addressed the Board, opposing the passage of the resolution. He declared that the bill calling the election could only be repealed by the passage of an ordinance

as required by Article II, Chapter I, Section XVIII of the Charter, and that such action would mean a great expense for advertising to the City. He declared further, that the only persons opposing the proposed charter amendment were interested office holders.

Neat Power was also granted the privilege of the floor and stated that the proposed amendment was vicious and pernicious in the last degree, that while it prevented a resident of San Francisco holding two positions under the government, it permitted a resident of San Mateo or any of the trans-bay cities to do so, thus discriminating against residents of San Francisco. He requested the adoption of the resolution.

Motion.

Supervisor McLaughlin moved that the matter be laid over until the next meeting of the Board, and in the meantime referred to the City Attorney for his opinion as to its legality.

Motion carried.

Announcement.

His Honor the Mayor announced that he desired to call a meeting of the Board for Thursday, September 29, 1910, at 2:00 p. m., for the purpose of discussing the temporary city hall project.

ADJOURNMENT.

There being no further business, the Board at the hour of 6:10 o'clock p. m. adjourned, to meet Thursday at 2:00 p. m., in the matter of accepting bids for the construction of a temporary city hall building.

W. R. HAGERTY, Clerk.

THURSDAY, SEPTEMBER, 29, 1910.

In Board of Supervisors, San Francisco, Thursday, Sept. 29, 1910, 2:30 p. m.

The Board of Supervisors met pursuant to adjournment for the purpose of considering the propositions for the election of a temporary City Hall Building and the matter of rescinding action on Charter Amendment No. 26.

His Honor Mayor McCarthy presiding.

CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Supervisors Bancroft, Cutten, Deasy, Harris, Healy, Herget, Kelly, Loughery, McLaughlin, Minehan, Murdock, Nelson, O'Dowd, Walsh—14.

READING THE JOURNAL.

The reading of the Journal of the meeting of September 26, 1910, was ordered deferred until the next meeting of the Board.

RELATIVE TO TEMPORARY CITY HALL.

The following communication from His Honor, the Mayor, was presented and read, ordered published, entered at large in the Journal and referred to Buildings Committee.

Mayor's Veto.

September 29, 1910.

To the Honorable, the Members of the Board of Supervisors, No. 64 Eddy Street, City.

Gentlemen: I beg leave herewith to return to you, without my approval, your Resolution No. 6575 (New Series), adopted at a meeting of your Honorable Board, held September 19, 1910, whereby the City takes steps to enter into a contract with the Land Title Company for the erection and leasing of a temporary City Hall structure at Grove and Larkin streets.

In thus returning to you without approval the Bill above referred to, I have the honor to assign as my reason for so doing the fact that the Land Title Company has failed to convince me of its ability to finance the project in hand. After a careful investigation into the existing conditions I am convinced that, while the gentlemen representing the Land Title Company personally desire to fulfill their proposed contract, and while their intentions are honorable insofar as good faith is concerned, they are, nevertheless, without the actual money necessary to a prompt fulfillment of their obligation.

I am firmly opposed to signing any bill or contract that may place the City in a position where the success of a contract may depend upon the ability or inability of speculators to float a particular financial project. I am well satisfied that the Land Title Company is not in a position to command the necessary funds for the immediate erection of a City Hall building, and that the construction of such City Hall will entirely depend upon the company's success or failure in an endeavor to interest capital in the project. I have given the representatives of this company ample opportunity to demonstrate their financial ability to carry out the contract without undue delay and, as a result thereof, I am obliged to report to your Honorable Board that such evidence of such financial soundness and responsibility is lacking.

With this explanation, I desire herewith respectfully to return to you, as above stated, and without my approval, the bill herein referred to.

Yours very sincerely,

P. H. McCARTHY,

Mayor of the City and County of San Francisco.

Offers to Construct Temporary City Hall Building.

The following communications were presented and read by the Clerk:

Communication—From Geo. E. Bew & Company, with offer to construct temporary City Hall building on Jones street, between Golden Gate avenue and Turk street, and to lease same to City at a monthly rental of \$4750.00.

Also, communication from Eugene J. Sullivan, with offer to erect a temporary City Hall building at the corner of Eighth and Mission streets, and to lease same to City at a monthly rental of \$5250.00.

Also, communication from the Sharon Estate Company with offer to erect temporary City Hall building on New Montgomery street, Jessie and Annie streets, and lease same to the City at monthly rental of \$5000.00.

Privilege of the Floor.

Joseph M. Conyns, Secretary of the Mechanics' Institute, was granted the privilege of the floor and requested that the matter of selecting a temporary City Hall site be deferred until such time as he could take the matter up with the trustees of the Mechanics' Institute with a view to making a proposition to the City similar in terms to that of the Land Title Company to construct a temporary municipal building on its property at Grove and Larkin streets. He stated that while the Land Title Company had a fifty-year lease of the property, he was satisfied that arrangements could be made with the Mechanics' Institute for the construction of the building above mentioned if terms could be arranged with the Mayor and the Board of Supervisors.

Suggestion of Supervisor Deasy.

Supervisor Deasy presented the following statement, which was read by the Clerk:

There are on file in the Bureau of Architecture sketch drawings and plans for a new City Hall, to be erected on the existing site. A copy of same is in the Clerk's office of the Board of Supervisors. The plan comprises a group of buildings, five in number, to be erected on existing foundations.

It is suggested that these plans be carried into effect and that work in this direction be commenced immediately.

If this should be determined upon, the following procedure is suggested:

About \$5000 could be set aside from the fund raised by the special tax levied for the "paving, repaving, etc., of streets, sewers, etc., for construction of and repairs to public buildings, etc., for the purpose of preparing detailed plans, working drawings and specifications

for *one* of these buildings.

It will probably require three months to do this work.

At the end of this time the money required for its construction could be set aside from the same fund. The practice in this connection would be the same as now adopted for the erection of school buildings. The contract could be awarded so that the first payment for construction would not fall due until July 1, 1911. Thus the fund as it stands would not be diverted from its present uses, viz: The necessary paving of streets, etc.

In fixing the next tax levy provision could be made to raise by taxation the money required to pay for the construction of this structure, and possibly an additional one of the group of buildings.

The money from this tax would be available July 1, 1911, in time to meet the first payment on the contract. By that time the building would be well along to completion, and it might be ready for occupancy by October 1, 1911.

If we wait until the next fiscal year before commencing work on the plans, it will be October 1, 1911, before any work of construction would be started. In other words, if we commence this plan *now* we can give ocular demonstration of our ability to provide a new City Hall and keep our pledges to the people.

If we should have an architectural competition, at least six months' time would be frittered away before even the preliminary plans could be determined upon.

If this plan should be adopted the entire new City Hall would be completed by the time of the Panama Exposition and a bond issue would not be necessary.

SUPERVISOR DEASY.

Motion.

Supervisor Herget moved the reference of the entire matter to the Building Committee.

Motion *carried* by the following vote:

Ayes—Supervisors Bancroft, Cutten, Deasy, Harris, Healy, Herget, Kelly, Loughery, McLaughlin, Minehan, Murdock, Nelson, O'Dowd, Walsh—14.

Rescinding Action Approving Charter Amendment No. 26, Relative to City Officers or Employees Holding More Than One Public Position.

The following communication was presented and read by the Clerk:

Opinion of City Attorney.

September 28th, 1910.

Gentlemen—I am in receipt of your communication of September 27th, in which you ask to be advised as to the

power of the Board to adopt, at this time, a Resolution rescinding a certain proposal to the electors of the City and County for the amendment of the Charter, which proposal was designated as "Amendment No. 26". The purpose of such Resolution is to withdraw from the consideration of the electors such proposal.

The proposed Amendment No. 26 was ordered submitted to the electors by vote of the Board of Supervisors on August 31st, 1910, and publication thereof was commenced in the official paper on the 10th day of September, 1910. Subsequently, and on the 19th day of September, 1910, the Board of Supervisors finally passed Ordinance No. 1301 (New Series), calling and ordering the special election to be held on the 15th day of November, 1910, for the purpose of submitting to the electors propositions to amend the Charter of the City and County. This ordinance was approved by the Mayor on September 20th and published as required by law.

In Ordinance No. 1301 (New Series), Charter Amendment No. 26 was included as one of those directed to be placed upon the ballot at the special election.

The question upon which you desire to be advised is not so much the power of the Board to withdraw such proposed amendment from the consideration of the electors as it is whether such act will affect the validity of other amendments which are to be submitted at such election.

Section 8 of Article XI of the Constitution, providing for the adoption and amendment of municipal charters, reads in part as follows:

"The charter, so ratified, may be amended at intervals of not less than two years by proposals therefor, submitted by the legislative authority of the city to the qualified electors thereof at a general or special election held at least forty days after the publication of such proposals for twenty days in a daily newspaper of general circulation in such city, and ratified by a majority of the electors voting thereon, and approved by the legislature as herein provided for the approval of the charter."

It will be observed that there is nothing in the Constitution specifying the time at which the ordinance calling the election must be passed. Such being the case it is not necessary that such election shall be called before the publication of the proposed charter amendments commenced or before such publication is completed.

The proposal of the Supervisors to submit the amendment and the ordi-

nance calling and providing for the special election are two separate acts. The power granted to the Supervisors to submit the charter amendments in the first place includes the power to rescind and withdraw the submission. Therefore, as far as the amendment itself is concerned your Board has full power to pass the rescinding resolution in the form submitted.

Without an amendment of Ordinance No. 1301 (New Series), the Board of Election Commissioners has no other authorization for the preparation of the ballot than that contained in such ordinance. In compliance with such ordinance it will, therefore, be necessary for the Board to prepare the ballot as specified in that ordinance.

The submission of Amendment No. 26, therefore, would be an idle act and if such proposed amendment is approved by the electors it would be of no value. Such procedure of course, could not affect the validity of the other amendments proposed. While, on the other hand, if the Election Commissioners should omit such proposal from the ballot the question might be raised that the ballot was not in the form prescribed by the Board of Supervisors in the ordinance calling the election.

However, it is within the power of your Board to amend Ordinance No. 1301 (New Series), by striking out therefrom all reference to the proposed charter amendment No. 26, provided that a reasonable notice of the election is given.

Respectfully,
PERCY V. LONG,
City Attorney.

Privilege of the Floor.

J. C. Saulman was granted the privilege of the floor and addressed the Board, stating that it would cost the City a large amount of money to reframe the ordinance calling the election and to publish it again with the proclamation of the election commissioners. He declared further that if the resolution was adopted that there was a probability that the question as

to the legality of the proposed Charter Amendment No. 38, increasing the minimum wages of laborers on public work might be raised.

Adopted.

Whereupon the following Resolution laid over from last meeting was taken up and *adopted* by the following vote:

Resolution No. 6632 (New Series), as follows:

Resolved, That Charter Amendment No. 26, proposing an amendment to the Charter of the City and County of San Francisco, by amending Section 4 of Article XVI relating to the holding of more than one office or employment, adopted by this Board on the thirty-first day of August, 1910, be and the same is reconsidered, and its adoption set aside and rescinded and the said amendment be not submitted to the electors at the election called on the 15th day of November, 1910; that the Clerk of this Board be directed to discontinue the publication of said amendment, and the Board of Election Commissioners are hereby directed not to print upon the ballot to be used at said election any reference or matter relating to said amendment No. 26.

Ayes—Supervisors Bancroft, Cullen, Deasy, Harris, Healy, Herget, Hocks, Kelly, Loughery, McLaughlin, Minahan, Murdock, Nelson, O'Dowd, Walsh—15.

Passed for Printing.

Thereupon the following entitled bill was introduced and *passed for printing* by the following vote:

Amending Ordinance No. 1301 (New Series), Calling and Providing for a Special Election for the Consideration of Charter Amendments.

Bill No. H88, "Amending Section Two of Ordinance No. 1301 calling and providing for a special election to be held on the 15th day of November, 1910", the provisions of which eliminate Charter Amendment No. 26.

ADJOURNMENT.

There being no further business, the Board at the hour of 4 o'clock p. m. adjourned.

W. R. HAGERTY, Clerk.

Approved by the Board of Supervisors, October 3, 1910.

Pursuant to Resolution No. 3102 (New Series) of the Board of Supervisors of the City and County of San Francisco, I, W. R. Hagerty, hereby certify that the foregoing are true and correct copies of the Journals of Proceedings of said Board of the dates thereon stated, and approved as above recited.

Report of Police Committee Denying Petitions for Nickel in the Slot Machine.

The following report was read by the Clerk and, on motion of Supervisor Herget, *adopted* by the following vote:

San Francisco, October 3, 1910.

To the Honorable, the Board of Supervisors of the City and County of San Francisco.

Gentlemen: The matter of the enactment of an ordinance permitting the use of slot machines has been before the Police Committee of the Board of Supervisors for many months. Merchants, bankers, cigar dealers, and business men from all sections of the city have petitioned the Board from time to time for the passage of an ordinance that would permit the use of slot machines as "trade stimulators", and your Committee held several meetings in the matter and has heard fully and with a great deal of consideration the arguments of those favoring the machines and those protesting against them.

Previous to the close of the last administration the slot machine was prohibited by ordinance, and a large source of revenue, amounting to approximately \$200,000.00 a year in license taxes, was thereby destroyed, so that when the present Board of Supervisors came into office, it faced a constantly increasing list of budget expenditures, and a greatly diminished source of revenue with which to meet them. This in some way or other had to be made up if the administration of the city's affairs was to be carried on efficiently and with proper results to the taxpayers. It was with the hope of restoring, in some measure at least, this revenue that the Police Committee was inclined to look with favor on the return of the slot machines, but only on the condition that

they could be so regulated by law as to eliminate all the gambling features of the machine and to correct the other abuses that grew out of its use in previous years. Under no consideration would the Police Committee recommend the restoration of the slot machines on any other condition. The Committee is, and always will be, unalterably opposed to anything that will tend to lower, in the slightest degree, the moral standing of the community, or to place before the youth of the city anything that would encourage the gambling spirit, inculcate immoral habits, or to permit anything that would prey upon the weaker members of the community.

The Police Committee believe that the slot machine was a matter for regulation, and not a matter for absolute prohibition, and for that reason thought of submitting to the Board, without recommendation, an ordinance permitting the use of two machines at each stand under such restrictions as would prohibit "play backs" and other features of gambling. Slot machines, under such an ordinance, the Committee believed, could be permitted with ample protection to the public and be made a source of legitimate revenue to the city.

It has lately developed, however, that the general public is not favorable to the restoration of the slot machines on any condition whatsoever. Protests have been filed by organizations representing all classes of our citizens. The Merchants' Association, the Y. M. C. A., the Royal Arch, The City Front Federation, the Down Town Association, numerous other organizations, and even some of the cigar dealers themselves have placed themselves on record as emphatically opposed to the restoration of the machines. Moreover, persistent rumors of an attempt to monopolize the manufacture of the machines, in the event of favorable action by the Board, which, of course, could not be countenanced, has disposed the Committee to change its opinion as to the advisability of enacting such an ordinance, and to seek other means for making up the loss of revenue caused by the abolishment of the slot machine. With these considerations in mind, your Committee therefore recommends that the petitions on file, requesting the restoration of the slot machines, be denied.

In conclusion, your Committee wishes to add that it has been subject to considerable abuse in this matter from anonymous letter-writers and has been frequently and grossly misrepresented by the press, but that all times it has been actuated solely by a sincere desire to do what it thought best for

the community at large, to restore in some measure, at least, the revenue that was lost to the city and to afford relief to those men engaged in the legitimate cigar business who had suffered by the severity of the law.

Respectfully submitted,

JOHN L. HERGET,

C. J. DEASY.

Denying Extension of Ocean Shore Franchise.

The following Bill heretofore *passed for printing* was taken up:

Bill No. 1486. Ordinance No. —, (New Series), as follows:

An Ordinance amending Section 7 of an Ordinance entitled "Ordinance No. 1623, providing for a grant to the Ocean Shore Railway Company, a railroad corporation, of a right of way for and the right to construct, maintain and operate a railroad, together with all necessary branches, sidetracks, turn-outs, switches, crossings, spur tracks, yard tracks, depot tracks and terminal tracks and facilities, along, over, under, across and upon certain streets, avenues, alleys, places and properties, in the City and County of San Francisco," approved October 5, A. D. 1905.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That Section 7 of an Ordinance entitled "Ordinance No. 1623, providing for a grant to the Ocean Shore Railway Company, a railroad corporation, of a right of way for and the right to construct, maintain and operate a railroad, together with all necessary branches, sidetracks, turn-outs, switches, crossings, spur tracks, yard tracks, depot tracks and terminal tracks and facilities, along, over, under, across and upon certain streets, avenues, alleys, places and properties, in the City and County of San Francisco," approved October 5, A. D. 1905, be and the same hereby is amended so as to read as follows, viz:

"Section 7. Said Ocean Shore Railway Company must commence the construction of the line of its said railroad hereinbefore authorized and hereinbefore described, within one year from the passage of this Ordinance, and fully complete the same within ten (10) years from the date of such passage, but the construction of a single track upon, over, under or across the said streets or portions of streets upon the route thereof, hereinbefore described, shall be deemed to be a sufficient compliance with this requirement. In case of failure or neglect on the part of said

company to commence and complete said work within the time herein specified, all rights and privileges hereby granted, and this franchise shall cease and determine as to such portion of the said line of said railroad as may then remain uncompleted."

Protests.

The following protests were presented and read by the Clerk:

Protest—Of Sutro Heights Improvement Club, against the renewal of the franchise of the Ocean Shore Railroad Company.

Of the Arguello Boulevard Improvement Club, against extension of the franchise of the Ocean Shore Railroad Company.

Of the Park Richmond Improvement Club, against extension of time for franchise of the Ocean Shore Railroad Company in the Richmond District.

Of the Point Lobos Improvement Club, against extension of franchise of the Ocean Shore Railroad Company in the Richmond District.

Privilege of the Floor.

Burke Corbell, Secretary of the Ocean Shore Railroad Company, was granted the privilege of the floor and stated that the opinion of the City Attorney bore out his contention that the extension of the franchise of the Ocean Shore Railroad Company over Route No. 2 in Sunset and Richmond Districts would not militate against the operation of the Geary Street Municipal Road over "C" street if it was determined to run a municipal road over said street. He declared also that the fear that property would be depreciated by the operation of a freight road was without good foundation, for the reason that there would be very little freight carried as compared with that of other parts of the City, there being no shipping points or places for distribution of freight in the territory traversed by Route No. 2. He stated, further, that if there was any particular objection to running the cars on Forty-eighth avenue, that there was an agreement between the Ocean Shore Railroad Company and the City of San Francisco, whereby the route could be changed from Forty-eighth avenue to Forty-seventh avenue or Forty-sixth avenue or Forty-fifth avenue, as the Board of Supervisors might designate. In concluding, he stated that the Ocean Shore Railroad Company was ready and willing to enter into the agreement prepared by the City Attorney relative to the use of the route of the Ocean Shore Railroad Company for a municipal road.

W. C. Cavitt, representing the Ocean-side Improvement Club, was also

granted the privilege of the floor and addressed the Board, declaring that the Ocean Shore Railroad Company was in the hands of the bankruptcy courts, and that it was very doubtful if any contract that it entered into would be binding. He stated that freight lines depreciated property values, and that the company had not acted in good faith with the city, inasmuch as it failed to construct its line over Route No. 2 within the period laid down in its franchise.

Charles C. Moore, representing bond holders of the Ocean Shore Railroad Company, also addressed the Board, and stated that he did not represent the company nor the stockholders, but that he was there merely to speak for the bondholders, who had purchased the bonds of the company under the impression that the franchises of the company were intact. He declared that the Ocean Shore Railroad Company was in a fair way to be reorganized on a sound financial footing, and he hoped that the Board of Supervisors would not put anything in the way. He stated that the Ocean Shore Railroad Company was strictly a San Francisco enterprise, and that local capital only was invested in it. He declared also that if the franchises were mutilated by refusing an extension of time over Route No. 2, that it would greatly discourage the men engaged in reorganizing and financing the Ocean Shore Railroad Company.

W. W. Watson, representing Point Lobos Improvement Association, also addressed the Board, stating that the railroad company wanted the Supervisors to preserve a portion of their assets and securities to the detriment of property values in the Sunset and Richmond Districts. He declared that the company did not intend to use the road for freight for the reason that there was no freight in the Richmond District. He stated also that their property in said district would be used for shops and a dumping ground for old equipment, and would thus tie up progress in the Richmond District for twenty-five years. Contracts, he said, were easily entered into, but would have to stand the test of the Courts.

F. W. Bradburn, representing bondholders of the Ocean Shore Railroad Company, stated that he had put his money into the proposition with the understanding that the company held certain valuable franchises, and that he and other innocent bondholders would suffer if the extension was refused. He declared that over seven million two hundred and fifty thousand dollars had been poured into the Ocean Shore, and that it was all local capital.

S. W. Monkenbohr, representing the Park Richmond Improvement Club, which, he stated, numbered two hundred paid-up members, declared that no good reason had been offered why the franchise should be extended. He doubted if any stipulation would avail, as the assignees of the property would ignore them if it was to their interest to do so.

A. C. Campbell, representing the Ocean Side Promotion Association, referring to the statement that \$7,250,000.00 had been invested in the Ocean Shore Railroad Company, declared that if the question was to be settled on a money basis, that he wished to draw attention to the fact that property along the route traversed by the Ocean Shore was worth over \$20,000,000.00 and the small property owner could not be made to suffer because bondholders had been unfortunate in their investments. He stated, further, that the people did not want a commercial railroad, that they needed a street railroad that would stop at every street crossing.

Refused Final Passage.

Whereupon question being taken on the foregoing bill, the same was refused final passage by the following vote:

CONSIDERATION OF MAYOR'S VETO.

The following Resolution, returned by his Honor the Mayor without his approval and with his objections thereto, and subsequently referred to the Public Buildings Committee, and returned by said Committee with the recommendation that the Mayor's veto be sustained, was taken up:

Accepting Offer of Land Title Company to Construct a Building at Grove and Larkin Streets for Temporary City Hall Purposes and to Lease Same to City for \$5250.00 Per Month.

Supervisor Nelson introduced the following:

Resolution No. — (New Series):

Whereas, The offer of the Land Title Company to erect and lease to the City and County of San Francisco a reinforced concrete building, to be located at the southwest corner of Grove and Larkin streets, having a frontage on Larkin street of 137 feet 6 inches and 192 feet 6 inches on Grove street, in accordance with the certain conditions, plans and specifications to be prepared, for a term of five (5) years, at a monthly rental of \$5250; and,

Whereas, It appears that the said offer of the Land Title Company is the best offer submitted for a temporary City Hall to accommodate certain municipal officers and departments of the City and County, therefore be it

Resolved, That the said offer of the Land Title Company be and is hereby accepted upon the following certain conditions, to wit:

The said Land Title Company is to construct a reinforced concrete building with elevators and other modern conveniences, on the lot situate at the southwest corner of Grove and Larkin streets, of dimensions 137 feet 6 inches on Larkin street, by a uniform depth of 192 feet 6 inches on Grove street, per plans and specifications to be arranged in detail by his Honor the Mayor and the Public Buildings Committee of the Board of Supervisors, said plans and specifications to be subject to approval by the Board of Public Works.

The said proposed building is to be completed and ready for occupancy within eight (8) months' time from the date of approval of this resolution by his Honor the Mayor.

The said Land Title Company is to take over the City's present leases of offices and departments proposed to be housed in said temporary City Hall as soon as the said building is occupied by the City, and further, moving all offices and departments to be installed in said proposed building when fur-

nished, from their present locations without cost to the City.

In conjunction with the temporary City Hall building the said Land Title Company is to erect at said premises a stable of at least 1500 square feet with accommodation for six horses and certain ambulances of the Emergency Hospital.

The said Land Title Company is to furnish a good and sufficient bond in the sum of \$25,000, to the approval and satisfaction of his Honor the Mayor, upon the acceptance of this offer by the City for the faithful performance of the agreement and completion of the said building within the stipulated time, and to further release the City from any cost or liability that might occur through any cause whatsoever during the construction of said building; and be it further

Resolved, That his Honor the Mayor be and is hereby authorized and requested to enter into a lease on behalf of the City and County of San Francisco with said Land Title Company for a period of five years, the monthly rental to commence from date of occupancy of said building by the City, in accordance with the above conditions or any additional stipulation or conditions that may be agreed upon and to be made a part of said lease at a monthly rental of \$5250; it being understood and agreed that should the City deem fit to continue the occupancy and retain the said premises for a longer period than that contained in the said lease, the City shall have the privilege of an option from year to year or for a number of years additional, at the same monthly rental figure of \$5250 per month; and be it further

Resolved, That Resolution No. 5755 (New Series), approved April 26, 1910, be and the same is hereby repealed.

Veto Sustained.

The question being, Shall the Resolution be adopted, notwithstanding the objections of his Honor the Mayor? the Roll was called with the following result:

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Mayor Requested to Re-organize the Bureau of Architecture.

Supervisor Bancroft introduced the following resolution under suspension of the rules, which was on motion ordered referred to the Building Committee:

Resolution No. —, (New Series), as follows:

Whereas, From January 1, 1910, to date there have been designed and contracted for by the Department of Architecture but eight new school houses and no new fire or police stations, and

Whereas, During said period no work has been done or contracts let on the thirteen following school houses provided for in the bond issue of 1908, viz: Girls' High School, Lowell High School, Polytechnic High School, Cooper, Gratian, Irving, Jackson, Jefferson, Lincoln, Marshall, Oriental, Starr-King, and the addition to the Mission High School, and

Whereas, Despite the fact that this Board of Supervisors has been in office for nine months, no steps have been taken towards providing money for the planning or construction of a new City Hall, and

Whereas, The work of the Department of Architecture has been largely in the direction of the supervision of construction of buildings planned and contracted for during the year 1909, with the exception of the planning of the eight new schools above referred to, viz: Franklin, Cleveland, Adams, Burnett, John Swett, Harrison, Peabody and Spring alley, and

Whereas, The most important buildings completed in 1910 or now under

construction were planned and contracted for during the year 1909, viz. the Hall of Justice, and the following sixteen schools of the bond issue of 1908, viz. Portola (South End), Bryant Cosmopolitan, Surro, Madison, Frank McCoppin, Garfield, Newton J. Tharp Commercial, Hancock, McKinley, Clement, Sheridan, Farragut (Lakeview), Denman, Jean Parker, Longfellow (West End) and the Holly Park, and

Whereas, the task of planning and providing for the letting of contracts during the year 1909, imposed great burdens upon the Bureau of Architecture, and that during the period from January 1, 1910, comparatively little has been done by the present Bureau of Architecture, and that notwithstanding the very great difference in the amount of work done during the year 1909, and the past nine months the average monthly pay roll of the Department of Architecture has been considerably greater during the past nine months than it was during the year 1909, and

Whereas, It is a well known fact that the expense of the supervision of construction of buildings already contracted for should be small in comparison with the expense of the preparation of plans and the letting of contracts on new work, it is quite evident that either a vast amount more of work should have been accomplished by the Department of Architecture in 1910, or a large saving in the pay roll should have been effected, and

Whereas, It has been publicly announced that the Board of Public Works proposes awarding the preparation of plans for certain schools to architects outside the Bureau of Architecture, which in itself is admission of incompetency on the part of said department; therefore, be it

Resolved, That the attention of his Honor, the Mayor, be directed to the statements contained in this resolution, with the request that he reorganize the Department of Architecture to the end that the public may not be called upon to pay twice for the same service.

Adopted.

The following resolutions were introduced under suspension of the rules and *adopted*:

RELATIVE TO TEMPORARY CITY HALL.

The consideration of offers for the construction of a temporary City Hall, made a special order of business for 3 p. m., this day, was taken up:

Accepting Offer of Sharon Estate to Construct a Temporary City Hall Building on New Montgomery Street and Jessie Street, and to Lease Same to City for Three Years at a Monthly Rental of \$5000.00.

Supervisor Nelson presented:

Resolution No. — (New Series), as follows:

Whereas, An offer has been filed from the Sharon Estate Company, signed by John C. Kirkpatrick, its vice-president, to erect and lease to the City and County of San Francisco a reinforced concrete building for temporary City Hall purposes, to be located at the southwest side of New Montgomery street at the intersection of Jessie and Annie streets and Rose alley, of dimensions 68 feet on New Montgomery street by a uniform depth of 264 feet, in accordance with the certain conditions, plans and specifications to be prepared, for a term of three years with the privilege of yearly renewals of lease, for the monthly rental of \$5000.00; and

Whereas, It appears that the said offer of the Sharon Estate Company is the best offer submitted for a temporary City Hall to accommodate the certain municipal offices and departments, therefore be it

Resolved, That the said offer of the Sharon Estate Company be and is hereby accepted upon the following certain conditions, to wit:

The said Sharon Estate Company is to construct a reinforced concrete building, with elevators and other modern conveniences, on the above described premises, per plans and specifications to be arranged and agreed upon in detail by his Honor the Mayor and the Public Buildings Committee of the Board of Supervisors, subject to the approval of the Board of Public Works.

The said proposed building is to be

completed and ready for occupancy within eight months' time from the date of the signing of the lease by the City.

The said Sharon Estate Company is to take over and assume the City's unexpired leases of the certain premises occupied by the offices and departments proposed to be housed in said temporary City Hall, upon the occupancy of said proposed building by the City; and further,

The said Sharon Estate Company is to move and install all furniture, fixtures and legal documents belonging to said officers and departments from their present locations to the proposed building, and to furnish all heat and light required in the proposed building, free of cost to the City and County of San Francisco.

The said Sharon Estate Company is further required to furnish a good and sufficient bond in the sum of \$25,000.00, subject to the approval and satisfaction of his Honor the Mayor, upon the acceptance of the said offer for the proposed building by the City, for the faithful performance of the agreement and completion of said building within the stipulated time, and to further release the City from any cost or liability that might occur through any cause whatsoever during the construction of said building, and be it further

Resolved, That his Honor the Mayor be and is hereby authorized and requested to enter into a lease on behalf of the City and County of San Francisco with said Sharon Estate Company for a period of three (3) years for the said proposed building at a monthly rental of \$5000.00, said rental to commence from the date of occupancy of said building by the City, in accordance with the above conditions or any additional stipulations or conditions that may be agreed upon and made a part of said lease, at a monthly rental of \$5000.00; it being understood and agreed that should the City deem fit to continue the occupancy and retain the said premises for a longer period than that contained in said lease, the City shall have the privilege of an option of further leas-

ing said building in blocks of six months' periods or from year to year or for a number of years additional, at the same monthly rental figure of \$5000.00; and be it further

Resolved, That Resolution No. 5755 (New Series), approved April 26, 1910, be and the same is hereby repealed.

Privilege of the Floor.

G. M. Kellum, architect of the Sharon Estate, was granted the privilege of the floor and in reply to the inquiry of Supervisor McLaughlin stated that it was possible to construct the building contemplated for City Hall purposes on the Sharon property in six months if favorable weather prevailed and deliveries of materials were made with promptness and expedition, but that he had never known an instance where there was not some delay either from weather conditions or failure of delivery of materials.

W. J. Tuska, representing the Progress Realty Company, was also granted the privilege of the floor and addressed the Board, stating that the site offered by the Progress Realty Company was the only logical one. He stated that it was near the present site of the old City Hall and in close proximity to the Auditor's, Treasurer's, Registrar's and Tax Collector's offices, and but a short distance from the other municipal departments in the Hewes Building and in the Grant Building. He declared that the Sharon site was inconvenient to business men and it did not look well to our Eastern friends who were seeking the City Hall to be told that it was on a small street in back of a hotel. He declared that the site at Golden Gate avenue and Hyde street was situated on the corner of two large streets and was convenient to everyone. He declared further that the erection of a temporary City Hall in the district west of Powell street would stimulate building in that section of the City.

Mr. Dickey, of Davidson & Lealy, real estate agents, representing the Whitecomb Estate, obtained the privilege of the floor and stated that his principal, Mr. Otis, the sole trustee of the Whitecomb Estate, was present and would put up a check at once of \$100,000.00 as an earnest of good faith in the matter of his offer to construct a temporary City Hall building.

James Otis, representing the Whitecomb Estate Company, stated that he would agree to construct a temporary City Hall building on property two hundred by two hundred and seventy-five feet on Market street, seventy-five feet west of Eighth street, at a cost of \$600,000.00 for a monthly rental of

\$6,250, exclusive of heat and light. He stated further that his offer included the assumption of the present leases binding the City and the installation of the municipal departments in the new building. Also, that provision would be made in the rear for the emergency hospital service. He declared further that if the City wishes a cheaper building he would construct one costing \$400,000.00 and reduce the annual rent 6½ per cent on the amount less than \$600,000.00, the building to be of reinforced concrete or class "B" brick construction. He stated further that he would put up at once a check of \$10,000.00 to be forfeited in case he failed to enter into contract on the above proposition within one week.

Colonel Dorn, representing the Sharon Estate, also addressed the Board and requested to be informed if Mr. Otis would guarantee that the rental value of the \$400,000 building he proposed to erect would not exceed \$5000, including heat and light, or \$4400.00 without heat or light. He declared that Mr. Otis was a money-lender and ordinarily received 5 per cent on his investment. He did not see why he was asking 6½ per cent from the City. He declared that the offer of Mr. Otis was \$860.00 per month more than that of the Sharon Estate.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Relative to Ordinance Licensing Itinerant Vendors.

Senator Edward Wolf was granted the privilege of the floor on motion of Supervisor Herget and addressed the Board, explaining the purpose of the bill licensing itinerant vendors which he had submitted to the Committee. He declared that the ordinance was prepared on the lines of the Detroit ordinance, and was calculated to protect local merchants who are permanently located in business in San Francisco, and who pay taxes for the support of the State and municipal government, against that class of merchants who come into the City after the assessment rolls have been made up each year and thereby avoid the tax required by law and are enabled thereby to compete unfairly with local merchants. He declared that the bill had been passed upon by the City Attorney

as good law, that it was not introduced to prevent competition, but only unfair competition.

Passed for Printing.

Garage Permit.

The following matter heretofore passed for printing was taken up:

Resolution No. — (New Series). Granting the Bothin Red Estate Company permission, revocable at will of the Board of Supervisors, to erect and maintain a public garage on property situated at north side of Broadway, 80 feet west of Larkin street, in accordance with the provisions of Ordinance No. 746 (New Series), and under the supervision and to the satisfaction of the fire marshal.

Privilege of the Floor.

H. I. Marshall, attorney representing protesting property owners, was granted the privilege of the floor and addressed the board, stating that the district surrounding the proposed garage was of a residential character, that granting the permit asked for, the Board of Supervisors would, by their action, endanger the lives of a great number of little children on the streets on account of the automobile traffic that would result from the storage of machines on the property. He declared that insurance rates would be increased from 75c to \$1 on each property owner in the vicinity of the proposed garage, and requested, for these reasons, that the petition be denied.

D. A. Hagens, resident, was also granted the privilege of the floor and addressed the board, stating that he spoke for himself, and the congregation of an adjoining church in opposition to the granting of the permit. He declared that the garage would be a menace from fire, and would depreciate property values in the neighborhood.

H. J. Kaufman, representing the petitioner, was also granted the privilege of the floor and addressed the board, stating that the building was constructed of brick and steel and was covered with a corrugated iron roof, and would be perfectly safe from danger from fire, as the gasoline would be stored under the sidewalk outside the building.

Recommended.

Whereupon on motion, the above resolution was recommended to the Fire Committee.

Final Passage.

The following resolution heretofore passed for printing, was taken up *finalia pass* by the following vote and numbered as follows, to wit:

Garage Permit.

Resolution No. 6762, (New Series), granting Julius Eisenbach permission, revocable at will of the Board of Supervisors, to erect and maintain a public garage on property situate at east side of Presidio Avenue, between California and Pine Streets, in accordance with the provisions of Ordinance No. 746 (New Series), and under the supervision and to the satisfaction of the fire marshal.

Accepting Offer of Sharon Estate to Construct a Temporary City Hall Building on New Montgomery Street and Jessie Street, and to Lease Same to City for Three Years at a Monthly Rental of \$5000.00.

Whereupon, the following resolution laid over from last meeting was taken up.

Resolution No. — (New Series), as follows:

Whereas, An offer has been filed from the Sharon Estate Company, signed by John C. Kirkpatrick, its vice-president, to erect and lease to the City and County of San Francisco a reinforced concrete building for temporary City Hall purposes, to be located at the southwest side of New Montgomery street at the intersection of Jessie and Annie streets and Rose alley, of dimensions 68 feet on New Montgomery street by a uniform depth of 264 feet, in accordance with the certain conditions, plans and spe-

cifications to be prepared, for a term of three years with the privilege of yearly renewals of lease, for the monthly rental of \$5000.00; and

Whereas, It appears that the said offer of the Sharon Estate Company is the best offer submitted for a temporary City Hall to accommodate the certain municipal offices and departments, therefore be it

Resolved, That the said offer of the Sharon Estate Company be and is hereby accepted upon the following certain conditions, to wit:

The said Sharon Estate Company is to construct a reinforced concrete building, with elevators and other modern conveniences, on the above described premises, per plans and specifications to be arranged and agreed upon in detail by his Honor the Mayor and the Public Buildings Committee of the Board of Supervisors, subject to the approval of the Board of Public Works.

The said proposed building is to be completed and ready for occupancy within eight months' time from the date of the signing of the lease by the City.

The said Sharon Estate Company is to take over and assume the City's unexpired leases of the certain premises occupied by the offices and departments proposed to be housed in said temporary City Hall, upon the occupancy of said proposed building by the City; and further.

The said Sharon Estate Company is to move and install all furniture, fixtures and legal documents belonging to said officers and departments from their present locations to the proposed building, and to furnish all heat and light required in the proposed building, free of cost to the City and County of San Francisco.

The said Sharon Estate Company is further required to furnish a good and sufficient bond in the sum of \$25,000.00, subject to the approval and satisfaction of his Honor the Mayor, upon the acceptance of the said offer for the proposed building by the City, for the faithful performance of the agreement and completion of said building within the stipulated time, and to further release the City from any cost or liability that might occur through any cause whatsoever during the construction of said building, and be it further

Resolved, That his Honor the Mayor be and is hereby authorized and requested to enter into a lease on behalf of the City and County of San Francisco with said Sharon Estate Company for a period of three (3) years for the said proposed building at a monthly rental of \$5000.00, said rental to commence

from the date of occupancy of said building by the City, in accordance with the above conditions or any additional stipulations or conditions that may be agreed upon and made a part of said lease, at a monthly rental of \$5000.00; it being understood and agreed that should the City deem fit to continue the occupancy and retain the said premises for a longer period than that contained in said lease, the City shall have the privilege of an option of further leasing said building in blocks of six months' periods or from year to year or for a number of years additional, at the same monthly rental figure of \$5000.00; and be it further

Resolved, That Resolution No. 5755 (New Series), approved April 26, 1919, be and the same is hereby repealed.

Accepting Offer of Whitcomb Estate Company to Construct Building for Temporary City Hall Purposes on Market Street, West of Eighth Street, and to Lease Same to City at a Monthly Rental of \$5,250.00.

Thereupon Supervisor Nelson introduced the following resolution, as representing the recommendation of the minority of the Building Committee in this matter, and moved its adoption:

Resolution No. — (New Series).

Whereas, An offer has been filed by James Otis, sole trustee of the estate of A. C. Whitcomb, to erect and lease to the City and County of San Francisco a combination of three reinforced concrete class "B" buildings for temporary City Hall purposes, and also stable and garage buildings to be class "B," all to be located on the lot at the southeast line of Market street, 75 feet southwest of Eighth street, and having a frontage on Market street of 200 feet with a uniform depth of 275 feet, in accordance with the certain conditions in offer, and the plans and specifications to be prepared, and to cost \$450,000.00 or \$500,000.00 approximately, for a term of three years with the privilege of yearly renewals of lease, for the monthly rental of \$5,250.00; and

Whereas, It appears that the said offer of James Otis, sole trustee of the estate of A. C. Whitcomb, is the best offer submitted for a temporary City Hall to accommodate the certain municipal offices and departments, therefore be it

Resolved, That the said offer of James Otis, sole trustee of the estate of A. C. Whitcomb, be and is hereby accepted upon the following certain conditions, to wit:

The said James Otis, sole trustee of the estate of A. C. Whitcomb, is to construct a combination of three reinforced concrete class "B" buildings,

with four rapid running electric elevators and four fireproof vaults and other modern conveniences, and also erect a stable and garage buildings, on the above described premises, and to provide proper vacuum cleaning and heating facilities, and to be wired for electric lighting, power, messenger, telephone and telegraph service and fire alarm boxes, and to erect stationary lighting fixtures where required, per plans and specifications to be arranged and agreed upon in detail by his Honor the Mayor and the Public Buildings Committee of the Board of Supervisors, subject to the approval of the Board of Public Works.

The said proposed buildings are to be completed and ready for occupancy within eight months' time from the date of the signing of the lease by the city.

The said James Otis, sole trustee of the estate of A. C. Whitcomb, is to take over and assume the city's unexpired leases of the certain premises occupied by the offices and departments proposed to be housed in said temporary City Hall, upon the occupancy of said proposed buildings by the city; and further,

The said James Otis, sole trustee of the estate of A. C. Whitcomb, is to move and install all furniture, office fixtures and legal documents belonging to said offices and departments from their present locations to the proposed buildings, free of cost to the City and County of San Francisco.

The said James Otis, sole trustee of the estate of A. C. Whitcomb, is further required to furnish a good and sufficient bond in the sum of \$25,000.00, to the approval and satisfaction of his Honor the Mayor, upon the acceptance of the said offer for the proposed buildings by the city, for the faithful performance of the agreement and completion of said buildings within the stipulated time, and to further release the city and county from any cost or liability that might occur through any cause whatsoever during the construction of said buildings, and be it further

Resolved, That his Honor the Mayor be and is hereby authorized and requested to enter into a lease on behalf of the City and County of San Francisco with said James Otis, sole trustee of the estate of A. C. Whitcomb, for a period of three (3) years for the said proposed buildings at a monthly rental of \$5,250.00; said rental to commence from the date of occupancy of said buildings by the city, in accordance with the above conditions, or any additional stipulations or conditions that may be agreed upon and made a part of said lease; it being understood and agreed that should the city deem fit to continue the occupancy and retain

the said premises for a longer period than three (3) years to be contained in said lease, the city shall have the privilege of an option of further leasing said buildings in blocks of six months' periods, or from year to year or for a number of years additional, at the same monthly rental figure of \$5,250.00; and be it further

Resolved, That Resolution No. 5755 (New Series), approved April 26, 1910, be and the same is hereby repealed.

Privilege of the Floor.

W. J. Tuska, representing the Progress Realty Company, was granted the privilege of the floor, and addressed the board, requesting that the amplified offer of said company increasing the amount to be expended by his company for the construction of a temporary City Hall building at Golden Gate avenue and Hyde street, be taken up and considered by the board. He stated that the site which he had submitted was in every way better fitted for City Hall purposes, on account of its proximity to other municipal offices, and to the further fact that it is away from car lines and the noise of heavy traffic.

John T. Williams, representing Baldwin & Howell, submitted the offer of said firm to lease the Heyman-Weil building on the old Grand Opera site on Mission street, near Third, for a period of five years at a monthly rental of \$5,000.00. He stated it was much larger than the Sharon property, the lot being 110x275 feet in dimensions, and accessible from all four sides, and in other ways ample to accommodate all the departments to be housed therein. He stated further that as this property could be immediately fitted up for City Hall purposes at a saving in time of about six months, which would be a very large item, could be made to the city.

T. J. Savage, attorney representing the Sharon estate, also addressed the board, stating that by the acceptance of the offer of said estate, a saving of \$879.00 per month or approximately \$50,940.00 for the entire term would be made to the city. He declared that his proposition provides for the accommodation of the Central Emergency Hospital and every other requirement that the board may find necessary. He declared that there was no question as to the financial responsibility of the people behind his offer.

L. P. Prindle, attorney representing the Whitcomb Estate Company, declared that the site presented by his clients was three times as large as any other proposition offered, that the saving in rent was so small when the fact was considered, that the building is placed on the principal public street

and convenient to the other municipal offices as to be of small consideration. He declared that the Whitcomb Estate was financially responsible and that the city would certainly get its money's worth if it accepted the offer.

Minority Resolution Adopted.

Whereupon, on motion of Supervisor Nelson, the above resolution accepting the offer of the Whitcomb Estate Company was adopted as Resolution No. 6762 (New Series), by the following vote:

Ayes—Supervisors Hayden, Healy, Herget, Hocks, Knowles, Loughery, McLaughlin, Minehan, Murdock, Nelson, O'Dowd, Walsh—11.

Noes—Supervisors Bancroft, Cutten, Deasy, Murdock, Pugh—5.

Absent—Supervisors Harris, Kelly—2.

Explanation of Vote.

Supervisors Bancroft and Deasy explained their votes by stating they were in favor of the immediate construction of a permanent City Hall.

Denying P. Mon Permission to Remove Laundry from No. 3031 to 3037 Twenty-second Street.

The following matter was presented to board by Fire Committee, without recommendation:

Petition of P. Mon for the removal of laundry from No. 3031 to 3037 Twenty-second street.

Privilege of the Floor.

B. P. Lapachet, attorney representing petitioner, was granted he privilege of the floor and addressed the board, stating that his client wished to remove his place of business a few doors from its present location to his own property; that he would construct a building that would be fire proof and would comply in every respect with the sanitary regulations required by the Board of Health, and that he had a petition from adjacent property owners equal to 75 per cent of those in the neighborhood favoring his application. He declared that no steam power would be used, and that the plant would be run by electricity.

P. A. Bergerol, attorney, representing protestants, also addressed the board, stating that he was not so much opposed to the granting of a permit for the removal of the laundry as he was to the granting of it at this time, claiming that it was premature; the petitioner being under lease for two years longer with his client.

Samuel McKay also addressed the board on behalf of protesting property owners against granting the application.

Petition Denied.

Supervisor Deasy moved that the petition be *denied*.

Motion carried by the following vote:
Ayes—Supervisors Bancroft, Cutten, Deasy, Hayden, Healy, Herget, Hocks, Knowles, Loughery, McLaughlin, Minehan, Murdock, Nelson, O'Dowd, Walsh—15.

No—Supervisor Pugh—1.

Absent—Supervisors Harris, Kelly—2.

Ayes—Supervisors Bancroft, Cutten, Deasy, Hayden, Healy, Herget, Hocks, Kelly, Knowles, Loughery, McLaughlin, Minehan, Murdock, Nelson, O'Dowd, Pugh, Walsh—17.

Providing \$3,000.00 for Reconstruction of Sewers in Beale Street.

Resolution No. 6801 (New Series), as follows:

Resolved, That the sum of \$3,000.00 be and is hereby set aside and appropriated out of the "Sewer Construction Account" of the Public Building Fund, bond issue of 1908, for the purpose of enabling the reconstruction of sewers necessitated by the change of grades on Beale street, between Folsom and Bryant streets.

Ayes—Supervisors Bancroft, Cutten, Deasy, Hayden, Healy, Herget, Hocks, Kelly, Knowles, Loughery, McLaughlin, Minehan, Murdock, Nelson, O'Dowd, Pugh, Walsh—17.

Providing \$2,300.00 for Shelving, at Infirmary Relief Home.

Resolution No. 6802 (New Series), as follows:

Resolved, That the sum of \$2500.00 be and the same is hereby set aside, appropriated and authorized to be expended out of the "Hospital Construction Account" of the Public Building Fund, bond issue of 1908, for the purpose of enabling the Board of Public Works to place necessary shelving, etc., in the Infirmary on the Relief Home Tract.

The attention of the Auditor, Treasurer, Board of Public Works and Board of Health is hereby called to the provisions of this Resolution.

Ayes—Supervisors Bancroft, Cutten,

Deasy, Hayden, Healy, Herget, Hocks, Kelly, Knowles, Loughery, McLaughlin, Minehan, Murdock, Nelson, O'Dowd, Pugh, Walsh—17.

Indefinite Postponement.

The following resolution heretofore passed for printing was taken up and, on motion of Supervisor Kelly, *indefinitely postponed*:

Providing \$2000 for Placing Running Water in Cells of County Jail.

Resolution No. — (New Series), as follows:

Resolved, That the sum of \$2,000.00 be set aside from the Urgent Necessity Fund for the purpose of making proper water connections in the cells in Branch County Jail No. 2; and be it

further Resolved, That the Board of Public Works be and hereby is instructed to immediately proceed with the performance of this work, and it is further requested to complete said work at the earliest possible date, and the Clerk of this board is directed to forward a copy of this resolution to the Board of Public Works immediately upon adoption.

Final Passage.

The following matters, heretofore passed for printing, were taken up, *finally passed* by the following vote, and numbered as follows, to wit:

Providing \$1,500.00 for Construction of Septic Tank at Golden Gate Park.

Resolution No. 6803 (New Series), as follows:

Resolved, That the sum of \$1500.00 be and the same is hereby set aside, appropriated and authorized to be expended out of the "Sewer Construction Account" of the Public Building Fund, bond issue of 1908, for the purpose of enabling the Board of Public Works to meet the cost of construction of a septic tank in Golden Gate Park.

Ayes—Supervisors Bancroft, Cutten, Deasy, Hayden, Healy, Herget, Hocks, Kelly, Knowles, Loughery, McLaughlin, Minehan, Murdock, Nelson, O'Dowd, Pugh, Walsh—17.

Providing \$250.00 for Repair to Sidewalks, Surrounding Washington Square.

Resolution No. 6804 (New Series), as follows:

Resolved, That the sum of \$860.00 be and the same is hereby set aside, appropriated and authorized to be expended out of the item "For paving, repaving, grading and repairs to streets, for reconstruction of and repairs to sewers, and for construction of and repairs to public buildings and other structures, excepting school buildings", in the Budget of the fiscal year 1910-11, for the purpose of enabling the Board of Public Works to repair the sidewalks surrounding Washington Square, in the block

bounded by Union street, Stockton street, Filbert street, Powell street and Columbus avenue.

Ayes—Supervisors Bancroft, Cutten, Deasy, Hayden, Healy, Herget, Hocks, Kelly, Knowles, Loughery, McLaughlin, Minahan, Murdock, Nelson, O'Dowd, Pugh, Walsh—17.

Authorizing Auditor to Appoint Additional Employees.

Bill No. 1528, Ordinance No. — (New Series), entitled: "Authorizing the Auditor to appoint certain additional employees in his office, and fixing their compensation."

Privilege of the Floor.

J. C. Saulmon was granted the privi-

lege of the floor and addressed the Board stating that the bill was illegal and in violation of the Charter, and that while its intent was to increase certain salaries in the Auditor's office, it actually authorized the Auditor to appoint additional employees.

Refused Passage.

Whereupon, the question being taken the foregoing bill was refused passage by the following vote:

Ayes—None.

Noes—Supervisors Bancroft, Cutten, Deasy, Hayden, Healy, Herget, Hocks, Kelly, Knowles, Loughery, McLaughlin, Minahan, Murdock, Nelson, O'Dowd, Pugh, Walsh—17.

Absent—Supervisor Harris—1.

Report of Public Buildings Committee on Supervisor Bancroft's Resolution Criticizing Bureau of Architecture.

The following report, consideration of which was made a Special Order of Business for 3 p. m. this day, was taken up and read by the Clerk:

To the Honorable, the Board of Supervisors of the City and County of San Francisco:

Gentlemen—

Your Committee on Public Buildings, to which was referred the Resolution presented to your Honorable Board by Supervisor Bancroft at the meeting of October 10, 1910, begs leave respectfully to report thereon as follows, to wit:

The subject matter of said resolution related to alleged inefficiency in the Bureau of Architecture of the Board of Public Works Department.

At a meeting, Tuesday, October 18, 1910, at 2 o'clock p. m., of this Committee on Public Buildings, in an open hearing, there appeared Supervisor Bancroft, Commissioner Newsom of the Board of Public Works Department, and George Colmesnil, Acting City Architect.

The resolution was taken up by your Committee on Public Buildings serialim.

Supervisor Bancroft presented certain data obtained from the records of the Board of Supervisors showing the amount of work contracted for during the year of 1909 and the first nine months of 1910 by the Bureau of Architecture, basing all his defense of his resolution upon the following facts, to wit:

That the total contracts for the year of 1909 amounted to the sum of \$2,927,841.16, and that the total sum of contracts for 1910, nine months in all, \$1,043,769.60.

The average monthly contracts for 1909 was a total of \$243,928.43, and for 1910, nine months, \$115,967.62.

Supervisor Bancroft admitted that he did not know that the work on the planning of the buildings contracted for during the year 1909 was only one-third of the total amount, while during 1908 and 1910 two-thirds of the work was accomplished. This fact was proved by the records of the Bureau of Architecture from January 1, 1908, to October 1, 1910, submitted by Acting City Architect Colmesnil, a copy of which report and records is herewith presented with this report of your Committee on Public Buildings.

Your Committee further investigated the work of the Bureau of Architecture and elicited certain facts that are incorporated in this report that have a material bearing on this whole subject.

The hearing upon the said resolution was opened by the Chairman of the Public Buildings Committee (Supervisor Nelson), with Supervisor Pugh present, Supervisor Harris being absent.

Each preamble was read and discussed and your Committee presents the following facts in answer to each charge made by the resolution offered by Supervisor Bancroft, to wit:

In the first preamble the resolution says:

"Whereas, from January 1, 1910, to date there have been designed and contracted for by the Department of Architecture but eight new school houses and no new fire or police stations."

Answering this statement directly, the schools referred to as being contracted for are as follows:

1—Spring Valley Grammar	May, 1910
2—Franklin Grammar	June, 1910
3—Cleveland Primary	June, 1910
4—John Swett Grammar	Aug., 1910
5—Adams Grammar	Aug., 1910
6—Burnett Primary	Aug., 1910
7—Harrison Primary	Sept., 1910
8—Peabody Primary	Sept., 1910

But in addition to this the Department of Architecture has now the following schools all finished and ready for figures, some of which are already advertised:

Grattan Primary,
Lincoln Grammar,
Visitacion Valley Primary.

Besides these buildings the following plans are nearly completed and will be advertised within two months:

Polytechnic High School Shop Buildings,
Girls' High School.

Work on the plans of the main building of the Polytechnic High School is progressing. Fully 30 per cent of the plans are now finished.

It will be noted that under the former administration the following school buildings were contracted for during the latter part of 1909, as follows:

Jean Parker Grammar	September,
Sheridan Primary	"
Farragut Primary	"
Denman Grammar	December,
Longfellow Primary	"
Holly Park Primary	"

On all of these buildings all necessary scale drawings and full sized details were left unfinished to the amount of 20 per cent of the whole work which had to be done by the Bureau during the present administration.

Plans had been made for a number of schools under the former administration that were abandoned because the estimates were found to be excessive, to wit:

The Spring Valley Grammar School should have been let early in February, but it was found that the cost of construction was one-half more than the appropriation, and as a result new plans for this building had to be prepared by the Bureau of Architecture of this administration, causing a net loss to the City of about \$2,000.

A similar condition occurred in the Adams Grammar School, with a loss of \$2,000.

On the Cleveland School, the re-drawing of the plans entailed a loss of \$2,000, and on the Grattan School the drawings were re-made at a net loss of \$1,500.

The total actual loss to the City for all this imperfect work done by the previous administration, outside of a loss of interest on the bonds on which the City paid 5 per cent, and not taking into account the loss to the people of the various districts by the holding back of the schools was, in all, no less than \$7,500.

Due to the large amount of work thus thrust upon the Department by reason of the necessity of re-drawing the plans above noted, viz.:

- 1—Spring Valley,
- 2—Adams,
- 3—Cleveland,
- 4—Grattan.

and the extra work on buildings contracted during the last months of 1909,

as well as the work of re-drawing many of the plans of the San Francisco City and County Hospital and the Hall of Justice as explained elsewhere in this report, and further on account of the increase of new work being done by the Department, it was found advisable by the Board of Public Works, in order that certain districts might have the schools that were needed at the earliest possible moment, to invite in architects as in private practice, who prepared the following school plans:

Lowell High School.
Marshall Primary School.
Peabody Primary School.

Of these three schools it may be said that the Peabody Primary School was contracted for in September, 1910, and the Lowell High School and the Marshall Primary are about to be advertised for figures.

As to the work on the Police Stations, it will be noted that the Park and Ingleside Stations were let on January 5, 1910, but the Bureau of Architecture, under the present administration, had to furnish 20 per cent of the drawings, including scale and full size details, which are a most important and considerable part of the work of preparing plans.

Since the letting of this work the Police Department has not asked for any new stations.

The Fire Department has had prepared the plans for the combined building to cost \$40,000.00 for

Engine No. 6,
Truck No. 11.

and these plans will be advertised for bids in November.

Under an estimate of \$75,000, the plans for the Fire Department Headquarters and Stations are now well under way.

This structure will accommodate three separate companies in the first and second floors, viz.:

1 Truck Company,
Engine and Hose Company,
High Pressure Hose Company.

On the third floor will be located temporarily the offices of the Fire Commissioners, the Chief of the Department and Fire Marshal, as well as the private quarters of the Fire Chief.

The type of building will be a Class "A" reinforced concrete with exterior of pressed brick and terra cotta.

In addition to all the above work, the Bureau of Architecture has continued the drawings on the Hall of Justice, revised all the drawings on the San Francisco Hospital to keep same within the appropriation, and has prepared and delivered to the Playground Commission plans for the North and South side playgrounds, and plans for the North Beach Public Bath House.

Immediately after the advent of the present administration the inspectors employed on the various schools discovered serious conditions existing in the construction of buildings that warranted the Mayor and the Board of Public Works calling for a thorough investigation of the work done during 1908 and 1909.

A commission composed of Engineer J. D. Galloway, Henry A. Campbell of the Merchants' Association of San Francisco, Bureau of Inspection of Public Improvements, and Matthew O'Brien of the American Institute of Architects, was appointed to examine a number of buildings erected by the past administration at the time that Mr. Daneroft was the chairman of the Public Building Committee of the Board of Supervisors.

This committee, after some months of investigation, submitted a report dated May 27, 1910, which proved that the present administration was justified in its claims that work had been passed upon by those in authority during the former administration that was criminally defective and absolutely dangerous.

Brief extracts of this exhaustive report are as follows:
"Mission Grammar School":

"A beam between columns 41 and 50 and similarly placed beams, four in number, have a strength some 14 per cent less than required."

"Roof trusses are of poor design and very costly. The members of the truss under compression have a length compared to their radius of gyration greater than allowed in good practice."

"The design of the steel frame is very defective. The purlins are too small, the angles of this truss are entirely too light and a connection shown of this truss to the wall is of insufficient strength."

"The school has a large brick chimney at the rear which projects above the roof. It is our opinion that this chimney would be dangerous in an earthquake, as in falling it would either break through the roof or be precipitated into the yard. We advise that this chimney, from the roof surface up, be removed and a metal chimney substituted."

"Bryant School":

With reference to "The reinforced concrete girder marked 'G' in the first floor, extending from columns 11 to 16, we find that this girder has 30 per cent of the required strength and the building should not be used until temporary or permanent supports are placed under this girder."

"There is a high brick chimney on this school, as in the other buildings. We recommend that it be removed and a metal chimney be substituted."

"The McKinley School":

"In this building certain columns numbered 13, 14, 15 and 16 do not come up to the requirements."

"Over the windows at the second floor and cornice level there are some wooden trusses carrying the floor joists over the windows. These trusses are entirely too light in construction, certain rods in them having but 15 per cent of the required strength."

Here again we find a truss 85 per cent too light and the commission at once ordered that these trusses be removed or strengthened. As in the other buildings, a high brick chimney was found to be dangerous and it was advised that a metal chimney be substituted.

"Clement School":

"We find that the construction of the partitions next the hall in the first story is such that the load from the second floor and roof is brought down upon concrete beams of the first floor in such a way as to overload these beams."

"We find that the reinforced concrete girders of the first floor, running through the central portion of the building, and similar girders of the basement floor over the sub-basement are entirely too light, having but 39 per cent of the required strength. We also find that the reinforced concrete columns supporting these girders are deficient in strength. We suggest, as a remedy, that steel columns with proper foundations be placed under the center of the girders."

"These steel columns should be of a size to carry 80,000 lbs. in the basement story and 170,000 lbs. in the sub-basement."

"On the outer walls there are trusses made of timber and iron rods."

"These trusses have but a small fraction of the required strength necessary to carry the loads which will come upon them."

"They must either be reconstructed of sufficient sized material or there should be supports placed under them."

As in the other schools, the large brick chimney is ordered to be removed and a metal chimney substituted.

Commenting generally on all the various buildings done prior to the advent of this administration, the commission says "the buildings are of a type of structure which is of poor design from a structural standpoint. We note throughout all of the plans that not enough attention was paid to the structural design. A case in point is the Mission Grammar School where a considerable saving could have been made to the City in the steel frame, most of which is far heavier than the most rigid assumptions would warrant. It is deficient in bracing which we consider essential in this city."

(Signed) "J. D. GALLOWAY,

"MATTHEW O'BRIEN,

"HENRY A. CAMPBELL."

All the recommendations of the Commission were carried out in all the various schools found to be defective, at a great extra cost to the City.

Those who appreciate what constitutes good construction can draw their own conclusions of what would have happened in the Bryant School if this defective girder, 70 per cent too light, had not been discovered by this administration. As it was located on the first floor, if the building had been occupied and had it failed, it would have undoubtedly caused the whole building to collapse. The result would have been appalling and too frightful to contemplate.

If this administration had found no other defective work in any other of the school buildings, this discovery alone showed the wisdom of the Board of Works in thoroughly inspecting all the school buildings done by the former administration.

No comment need be made as to the character of the plans drawn or the inspection of work done when such conditions as these were found in this and other schools.

If comment is needed in considering the gross ignorance and criminal negligence of those whose duty it was to safeguard the lives of the school children of the City in the construction of the school buildings, the conditions here outlined must be taken as a basis of the severest condemnation of the past administration, where, as is here so clearly shown, great girders and the columns supporting them in the center of the building were found to be over 60 per cent too light and where columns had to be placed to take care of a combined load of 80,000 lbs. on the first floor and 170,000 lbs. in the basement.

The parents of the children of the Clement School are justified in their condemnation of the utter incapacity of the authorities that permitted conditions like these cited to exist.

Plans for the following yards for six schools, which were left out entirely because the appropriations were used up by construction of buildings under the former administration, have been made and contracts let:

Bay View Grammar;
Dudley Stone Primary;
Oceanside Primary;
Longfellow Primary;
Yerba Buena.

The Suto Grammar yard work has been advertised for bids.

It will be seen by the above summary of work actually done since the present administration came in, that the preamble of the resolution is obviously based on a lack of knowledge which might easily be obtained from the Bureau of Architecture if Mr. Bancroft wished to be fair in his criticism.

The second preamble says:

"Whereas, During the said period no work has been done or contracts let on the thirteen following school houses provided for in the bond issue of 1908, viz: Girls' High School, Lowell High School, Polytechnic High School, Cooper, Grattan, Irving, Jackson, Jefferson, Lincoln, Marshall, Oriental, Starr King, and the addition to the Mission High School."

By reference to the reply to first preamble, it will be seen that the Lowell High, Grattan, Lincoln, Marshall and Visitation Schools are all finished and ready for advertisements.

The progress on the Polytechnic and Girls' High is also shown clearly. As to the balance of the schools mentioned, a simple inquiry would have shown that the Irving School site was found to be too small for the size of school needed and that so far land sufficient has not been arranged for and no request has been received for preparation of plans for this school from the Board of Education.

Cooper School site was found to be of such impossible grades that a sixteen-room school could not be planned so that the proper light exposures could be obtained. Board of Education abandoned progress until a proper site could be obtained. No request has ever been received for plans of this school from the Board of Education.

Oriental School was abandoned because of the steep grades and the excessive cost of building on such a location. No request has ever been received for plans of this school from the Board of Education.

Jefferson School was abandoned because the site was used for a playground and no new site has been secured as yet. No request has ever been received for plans of this school from the Board of Education.

Starr King School has as yet no settled site and no instructions have been received from the Board of Education as to progress.

Jackson School: Sketches were made and approved and working drawings were well under way when the citizens of the neighborhood where the school was to be built objected to the proposed site and the Board of Education ordered all work stopped, pending a settlement of the trouble which has arisen.

Additions to the Mission High School were found unnecessary by the Board of Education and project abandoned, after investing several thousand dollars in additional property.

These brief statements show that Preamble No. 2 was based on gross ignorance of facts that could have been obtained by the humblest citizens interested.

Preamble No. 3 of the resolution does not refer to the work of the Bureau of Architecture. It refers to the alleged lack of attention on the part of your Honorable Board in the matter of providing funds for and the building of a permanent City Hall.

Your committee would state that the project is one of such magnitude and importance that great care must be taken at every step in the consideration of the building of the proposed City Hall.

The matter is not dormant, but is being considered by the proper authorities with a view to immediate action when a suitable plan of procedure is determined.

Preamble No. 4 says:

"Whereas, The work of the Department of Architecture has been largely in the direction of the supervision of buildings planned and contracted for during the year 1909, with the exception of the eight new schools above referred to, viz: Franklin, Cleveland, Adams, Burnett, John Swett, Harrison, Peabody and Spring Valley."

This preamble, by reference to the answer to Preamble No. 1, will be found to be unfair and untrue, as it has been clearly shown that a vast amount of new work on plans of many new schools was done, besides rectifying all the extremely poor work done on buildings erected in 1908 and 1909 and finishing much work left undone on the buildings contracted for during the latter part of 1909, as noted.

Preamble No. 5 says:

"And Whereas, The most important buildings completed in 1910, or now under construction, were planned and contracted for during the year 1909, viz: Portola (South End), Bryant, Cosmopolitan, Sutro, Madison, Frank McCoppin, Garfield, Newton J. Tharp Commercial High, Hancock, McKinley, Clement, Sheridan, Farragut (Lakeview), Demman, Jean Parker, Longfellow (West End), and the Holly Park."

It may be well to recall the severe arraignment by the commission appointed by the Mayor and the Board of Public Works, extracts of which were cited in answer to Preamble No. 1:

The Bryant, Madison, McKinley, Clement, Mission Grammar, and others were found to be defective and absolutely dangerous.

On the McKinley and Hancock Schools it was found that past Architect Rixford ordered, without authority, and on his own volition, extra footings when it was discovered that the soil was not strong enough to bear the weights that would be put upon it if the buildings were erected. This delay and extra cost were caused by the gross negligence in not boring test holes.

In both cases large sums of money were paid to F. H. Born, who was the contractor on both buildings—\$2,217.79 on the McKinley School and \$8,664.40 on the Hancock School.

On the Jean Parker School a more serious condition of affairs eventuated by reason of proceeding without proper borings and investigation of the ground before planning the structure.

A letter sent by the contractors to Architect Rixford tells its own story:

"San Francisco, December 16, 1909.

"We are in receipt of a communication from one of our subcontractors on the Jean Parker School claiming damages caused by delaying the construction of said school for an indefinite time.

"The contract for this school was awarded to us September 29, 1909, but we did not commence operations at once on account of some changes made by Mr. Rixford.

"We commenced excavating for the foundations and piers about the latter part of October and dug trenches to depths as shown on plans. We also shipped our materials (such as cement, lumber, rock and reinforcing bars) and also the machinery to prosecute the work to completion.

"After digging the trenches to foundation depths we found that on account of the instability of the ground on certain parts of the site that we were obliged to cease operations, and advised Mr. Rixford concerning the nature of the ground. He informed us that he would have certain tests made and would also revise the foundation plans so that the ground would carry the required load pressure of the building when same would be completed.

"We have waited for these plans until December 15th, in the meantime the late rains have washed and caved in our trenches and the moist atmosphere has caked 40 per cent of the cement stored on the site, the steel rods are rusting, the lumber is warping and the rock used for the concrete is scattered about the street. We have our office built and the phone installed, temporary plumbing work done, etc., etc. Although we have taken the most necessary precautions to protect our material, we could not keep same from becoming damaged. All this damage to our materials and waste of labor in conjunction with our own time regarding this job is caused by the unnecessary delay.

"We hereby hold the City liable for all the damage to labor and materials on this job, and we ask your just determination in this matter so that we may be justly compensated for the amount of damage sustained.

"By giving this matter your immediate attention, you will greatly oblige

"Yours respectfully,

"FINLAYSON-STETTIN CO.,

"By (Signed) H. R. Stettin, Jr."

The contractors have brought suit against the City for damages to the extent of nearly \$1,000.00 on account of the conditions outlined in the above letter. Additional footings also cost the City \$6,262.48, which was a total loss.

Further comment is unnecessary as to conditions that prevail on many other buildings produced by the Administration of 1909.

Preamble No. 6 says:

"Whereas, The task of planning and providing for the letting of contracts during the year 1909 imposed great burdens upon the Bureau of Architecture, and that during the period from January 1, 1910, comparatively little has been done by the present Bureau of Architecture, and that notwithstanding the very great difference in the amount of work done during the year 1909 and the past nine months, the average monthly pay roll of the Department of Architecture has been considerably greater during the past nine months than it was during the year 1909."

The answer to this sweeping statement may be made by a parallel column showing the work really done during the whole of 1909 and the nine months of work so far accomplished by the present Bureau of Architecture, as follows:

Work done by the Bureau of Architecture during the year 1909, 12 months in all:

May, 1909—McKinley Primary School.....	18	class rooms
July, 1909—Clement Primary School.....	15	"
Sept., 1909—Jean Parker Grammar School..	18	"
Sept., 1909—Farragut Primary School.....	18	"
Sept., 1909—Sheridan Primary School.....	18	"
Dec., 1909—Denman Grammar School.....	18	"
Dec., 1909—Longfellow Primary School....	14	"

Dec., 1909—Holly Park Primary School....18 "

The above schools were planned and contracted for within the year 1909, actually eight new schools in all, instead of sixteen, as mentioned in Preamble No. 5.

Of the balance of schools contracted for during 1909, viz:

Jan. 2, 1909—Bryant Cosmopolitan School, 18 class rooms
Jan. 2, 1909—Portola Primary School.....18 "
Feb. 3, 1909—Garfield Primary School.....19 "
Feb. 3, 1909—Madison Primary School.....14 "

The records of the Department show that these buildings were actually planned during the year 1908, and not during 1909.

The following buildings contracted for during 1909, viz:

March 1, 1909—Sutro Grammar School....18 class rooms
April 5, 1909—McCoppin Primary School, 18 "
April 5, 1909—Hancock Grammar School, 18 "
April 5, 1909—Commercial High School....31 "

were all partially drawn during the year 1908, as the records of the department show. The Commercial High School was almost completely drawn during 1908.

The Department also let the main contract of the Hall of Justice July 29, 1909, but the records show clearly that a large proportion of the planning of this building was done during the year 1908, in all 30 per cent of the drawings.

The Bureau of Architecture, during the latter part of 1909, also made plans for the Adams, Spring Valley, Cleveland, and Grattan Schools, all of which plans had to be abandoned because the estimates overran the appropriation nearly one-half.

The work of the Bureau of Architecture for 1910 so far accomplished, during a period of nine and one-half months, is as follows:

Scale drawings and full-sized details of all the following schools let in 1909, to the extent of 20 per cent.

Jean Parker Grammar School;
Sheidan Primary School;
Farragut Primary School;
Denman Grammar School;
Longfellow Primary School;
Holly Park Primary School.

The following schools were completely planned and contracted for as follows:

May, 1910—Spring Valley Grammar.....14 class rooms
June, 1910—Franklin Grammar School....14 "
June, 1910—Cleveland Primary.....14 "
Aug., 1910—John Swett Grammar.....14 "
Aug., 1910—Adams Grammar.....16 "
Aug., 1910—Burnett Primary.....12 "
Sept., 1910—Harrison Primary.....6 "

Plans were prepared and are now about to be advertised for bids as follows:

Grattan Primary School.....16 class rooms
Lincoln Grammar School.....11 "
Visitacion Valley Primary.....12 "

Plans are being prepared which are nearly completed for the following buildings that will be advertised within the next two months, viz:

Polytechnic High School, shop buildings...20 rooms
Girls' High School.....61 rooms
(With an assembly hall seating 1,000 people.)

The working drawings for the main building for the Polytechnic High School with 86 class rooms and a large auditorium that will seat over 1,000 people and a stage larger than many of the theatres of San Francisco, are 30 per cent completed.

The Department was employed on the details of the Park and Ingleside Police Stations, which work the Bancroft Resolution claims as finished in 1909,

during January, February and March of 1910, and for the Fire Department the following work is being done, viz:

Engine No. 6, Truck No. 14.

This house will be let in November.

Plans are under way under an appropriation of \$75,000.00 for the Central Fire Station.

For the Playground Commission plans have been delivered for the Public Bathhouse at North Beach Playground, and for the North and South Side playgrounds.

Plans for the yards of the following schools, contracted for prior to 1910, were made and let during this year as follows, viz:

Bay View;

Dudley Stone;

Oceanside;

Longfellow;

Yerba Buena.

The Sntro yard will be advertised in a few days for bids.

On the Hall of Justice a serious condition arose, due to the lack of proper inspection under the previous administration, of the riveting of the beams, girders and columns, both in the shop and in the building, and extras amounting to \$4,740.30 had to be granted to Caldwell & Company (the general contractors of the building), for the removal of the forms for the floors and columns that the riveting might be properly performed, and the replacing of forms for the installation of the reinforced concrete floors and columns.

Also, extras amounting to \$795.75 had to be granted to C. A. Blume & Company (contractors for the steel work), due to faulty design in the connections of the main staircase. As designed originally it was structurally weak, and again, after re-designing it, the same condition obtained, so that it was necessary under this administration to stiffen up all connections, thereby causing these extras.

STRUCTURAL DESIGN OF MAIN CORNICE.

Steel brackets for the support of the main cornice, originally designed to be built of stone, were found to be structurally weak and the stone was omitted and copper substituted.

Besides rectifying all these serious mistakes, all the scale drawings and full sized details have been prepared for all the hardwood interior finish, ornamental plastering, marble and metal work, elevators, main staircases, painting, decorating and lighting fixtures, amounting to about \$190,000, which will complete the building.

These contracts will all be awarded within sixty days.

In addition to this work all the drawings have been prepared and contracts awarded for the City and County Jail Building as follows, viz:

General masonry;

Plumbing and gas fitting;

Heating and ventilating;

Electric wiring.

Total contracts\$121,000.

Plans and specifications have also been prepared and will be advertised for bids within ten days for cells and cell work, window guards, of the City and County Jail, amounting to a total of \$75,000.

SAN FRANCISCO HOSPITAL.

The Bureau of Architecture has revised all the 1-8-inch scale drawings for the Nurses' Home Building and the Administration Building and the changes on the two buildings named have reduced the cost of same \$25,000.00. All of the 500 ground brick window arches have been omitted and iron lintels substituted, which has made a further saving of \$5,000.00.

The change from brick construction to a more simple and practical reinforced concrete design for the seven connecting passages has effected a saving of \$10,000.00, and by simplifying and changing the other exterior details and doing away with the more elaborate features the cost of the work so far awarded has been kept well within the schedule, which could never have been

possible without such reductions.

The Power House and Laundry Building, as previously designed, was so elaborate and badly planned by the previous administration that every drawing had to be made over by the present administration.

By locating the building twenty-five feet further south an immense retaining wall was eliminated and the work on this building is now well under way and the total cost of same has been brought within the appropriation.

The changes in all this work, which saved nearly \$50,000 to the City, occupied the time of a considerable force of men in preparing drawings and specifications.

Preamble No. 7 says:

"Whereas, It is a well known fact that the expense of the supervision of construction of buildings already contracted for should be small in comparison with the expense of the preparation of plans and the letting of contracts on new work, it is quite evident that either a vast amount more of work should have been accomplished by the Department of Architecture in 1910, or a large saving should have been effected."

The parallel column of work done during 1909 and 1910, above summarized, completely answers this preamble, as it is shown that the work of the Department during the period of nine and one-half months in 1910 is vastly more in amount than that done in twelve months under the Bureau of 1909.

The records show that on January 1, 1909, four buildings were in the course of construction and that at the present time 38 structures, including the Hall of Justice, City and County Jail, eight of the buildings of the San Francisco Hospital, are now under way.

The Bureau of Inspection of the Merchants' Association, under the management of Mr. H. A. Campbell, has advised that each of the buildings should have a special inspector, and the need of rigid inspection is further shown by such letters as the following from the San Francisco Women's Civic Club:

"San Francisco, October 11, 1910.

"Mr. Michael Casey, President Honorable Board of Public Works, San Francisco, Cal.:

"Dear Sir—At a recent meeting of this organization, a resolution was passed that the secretary communicate with your Honorable Board, protesting against the careless construction of the new public school buildings, viz: Bryant, Madison Primary, Clement Primary and Mission Grammar, as being unsafe, thereby endangering the lives of hundreds of children. Reports have reached us that you have given the matter your attention. Will you kindly confirm the report and inform us just what action has been taken to insure the protection of these pupils, as to making these condemned school buildings perfectly safe and secure. Very truly yours,

(Signed.)

"ISABEL MUNSON, Secretary."

The Board of Works itself was forced to take cognizance of the serious state of affairs that existed during December of 1909, when it was discovered that Mr. Loring P. Rixford, who was at that time Architect of the Bureau of Architecture, was ordering large extras upon work without legal authority and for which action he was removed by the Board of Works, as shown by the following:

"Resolution No. 1244 (Second Series):

"Resolved, That Loring P. Rixford, architect of this Board, be and he is hereby removed as architect of the Board of Public Works, to take effect at 12 o'clock noon of this day, for insubordination. Passed by the following vote:

"Ayes—Commissioners Casey, McGilvray and Day. Board of Public Works, December 10, 1909. Passed."

The Bureau of Architecture, keeping in mind the serious state of affairs caused by the inefficient inspection of work under the previous administration, increased its force of competent inspectors as the number of buildings under construction increased.

Thus the records show that in January, 1909, six men were employed by the previous administration as inspectors on four buildings, and at the present time thirty-eight men are employed as inspectors on thirty-eight buildings.

The records of the department also show that the total expense of maintaining the department has cost the City less during the eight months of 1910, as against the preceding eight months of 1909.

In reply to the resolution based upon the preambles as outlined in this report, your committee begs leave to present its conclusions herewith to your Honorable Board:

We find that the various statements contained in the preambles in the resolution are not based on fact; the evidence submitted in open meeting by Supervisor Bancroft, and the records offered in rebuttal by the Bureau of Architecture show clearly that a high degree of efficiency is maintained in the Bureau, and that the Inspection Department of the Bureau is absolute and thorough.

We find that the Bureau is maintained economically and along careful conservative lines.

We finally declare that the entire resolution is not based on fact, that the statements made are not true, and, as a result, is absolutely unfair to the people.

CHAS. A. NELSON,
WM. C. PUGH.

Report of Supervisor Bancroft in Support of His Resolution Criticizing Bureau of Architecture.

Whereupon, Supervisor Bancroft introduced the following report in support of his resolution criticizing the Bureau of Architecture, which was, on his motion, read and ordered *passed*:

To the Honorable, the Board of Supervisors:

At a meeting of the Public Buildings Committee, held on October 18th, two of the members of said committee, viz: Supervisors Nelson and Pugh being present, and Supervisor Harris being unavoidably absent, I appeared before said committee and furnished proofs of the statements contained in the resolution I had introduced in the Board of Supervisors on October 10, 1910.

First, I desire to repeat what I stated to the Building Committee at its meeting of October 18, 1910, regarding the late City Architect, Mr. Jas. L. Fisher. I stated to the committee that Mr. Fisher was a man who stood high in his profession (that of building foreman, or superintendent); that everyone who knew him had the highest regard for him; and that I had no criticism to offer of Mr. Fisher personally.

The first paragraph of my resolution read:

"Whereas, From January 1, 1910, to date there have been designed and contracted for by the Department of Architecture but eight new school houses and no new fire or police stations; and,"

The eight schools referred to are the following:

GENERAL CONTRACTS LET ON NEW SCHOOLS DURING 1910.

Statement compiled October 10, 1910.

Name of School.	Gen'l Cont. Let to.	Date.	Reference.
Peabody Primary.	McSheehy Bros.	Sept. 13, 1910.	Municipal Record, Sept. 29, 1910.
Harrison Primary.	McSheehy Bros.	Sept. 16, 1910.	Municipal Record, Sept. 29, 1910.
Burnett Primary.	Lange & Bergstrom.	Aug. 1, 1910.	Municipal Record, Aug. 11, 1910.
Adams Primary.	Lange & Bergstrom.	Aug. 1, 1910.	Municipal Record, Aug. 11, 1910.
Franklin Grammar.	G. D. Patterson Co.	June 17, 1910.	Municipal Record, July 7, 1910.
Spring Valley.	Caldwell & Co.	May 23, 1910.	Municipal Record, June 2, 1910.
Cleveland Primary.	Elmer Carlson Co.	June 3, 1910.	Municipal Record, June 9, 1910.
John Swett.	Brode Iron Works.	Aug. 26, 1910.	see records of Mr. Cyril Williams.

The contract awarded to the Brode Iron Works, on the John Swift School, was for steel. I found no record of any general contract having been let on said building.

My resolution stated that "there had been designed and contracted for by the Bureau of Architecture but eight new school houses." The resolution should have read seven instead of eight, as the Peabody School, although contracted for by the Bureau of Architecture, was designed by H. C. Smith, an outside architect.

I also find no record in the books of the office of the Board of Supervisors of any new fire or police stations having been contracted for in 1910 by the present Bureau of Architecture. The Ingleside and the Park Police Stations were contracted for on January 5, 1910, by the previous administration.

The second paragraph in my resolution read:

"Whereas, During said period no work has been done or contracts let on the thirteen following school houses provided for in the bond issue of 1908, viz: Girls' High School, Lowell High School, Polytechnic High School, Cooper, Grattan, Irving, Jackson, Jefferson, Lincoln, Marshall, Oriental, Starr King and the addition to the Mission High School; and,"

I find no record of any contracts having been let on any of the schools above enumerated. As all of the schools are being erected by contract, it is self evident that if no contracts have been let on any of the schools referred to, then no work could have been done on any of the said buildings.

The third paragraph of my resolution read:

"Whereas, Despite the fact that this Board of Supervisors has been in office for nine months, no steps have been taken towards providing money for the planning or construction of a new City Hall."

The above statement is a matter of record and of common knowledge to every member of this Board.

The fourth paragraph of my resolution read:

"Whereas, The work of the Department of Architecture has been largely in the direction of the supervision of construction of buildings planned and contracted for during the year 1909, with the exception of the planning of the eight new schools above referred to, viz: Franklin, Cleveland, Adams, Burnett, John Swift, Harrison, Peabody and Spring Valley."

The above statement is proven by the evidence herewith submitted.

The fifth paragraph in my resolution read:

"Whereas, The most important buildings completed in 1910, or now under construction, were planned and contracted for during the year 1909, viz: The Hall of Justice, and the following sixteen schools of the bond issue of 1908, viz: Portola (South End), Bryant Cosmopolitan, Sutro, Madison, Frank McCoppin, Garfield, Newton J. Tharp Commercial, Hancock, McKinley, Clement, Sheridan, Farragut (Lake View), Denman, Jean Parker, Longfellow (West End), and Holly Park."

I furnish herewith a list of the buildings above enumerated, with the names of the general contractors; the dates on which said general contracts were let, and references showing where the records of said contracts may be found.

			Dec. 31, 1909
Hall of Justice (steel)	Dyer Bros.	April 2, 1909.	April 7, 1910

The sixth paragraph in my resolution read:

"Whereas, The task of planning and providing for the letting of contracts during the year 1909 imposed great burdens upon the Bureau of Architecture, and during the period from January 1, 1910, comparatively little has been done by the present Bureau of Architecture, and that notwithstanding the very great difference in the amount of work done during the year 1909, and the past nine months, the average monthly payroll of the Department of Architecture has been considerably greater during the past nine months than it was during the year 1909."

The statements in the first part of the paragraph are proven by the facts herewith submitted, and also by the table which follows, showing the total amount of work contracted for in 1909 and 1910.

Regarding the payroll, I need go no further than to offer the payroll submitted to the Building Committee by the Bureau of Architecture. According to their figures, the total payroll for 1909 was \$134,881.20, and to total payroll of the first nine months of 1910 was \$112,269.15, which gives an average monthly payroll of \$11,240.10 for 1909 and \$12,474.35 for 1910.

Average monthly contracts let, as shown above, in 1909, was \$243,928.43.
Average monthly contracts let, as shown above, in 1910, was \$115,976.62.

The seventh paragraph of my resolution read:

"Whereas, It is a well-known fact that the expense of the supervision of construction of buildings already contracted for should be small in comparison with the expense of the preparation of plans and the letting of contracts on new work, it is quite evident that either a vast amount more of work should have been accomplished by the Department of Architecture in 1910, or a large saving in the payroll should have been effected."

The above statements can be proven by the fact that the regular charge of architectural firms is four per cent for the preparation of plans and the awarding of contracts and two per cent for supervision of construction.

The eighth paragraph in my resolution was:

"Whereas, It has been publicly announced that the Board of Public Works purposes awarding the preparation of plans for certain schools to architects outside the Bureau of Architecture, which in itself is admission of incompetency on the part of said department; therefore, be it"—

It is unnecessary to make any comment on the above statement. The Bureau of Architecture should either plan and supervise the construction of the school buildings that are to be erected, or else the Bureau should be abolished insofar as its constructive work is concerned. It is admitted that plans are either prepared or are being prepared by outside architects, for the Peabody, Lowell High and Marshall Schools.

The ninth and last paragraph in my resolution was:

"Resolved, That the attention of his Honor the Mayor be directed to the statements contained in this resolution, with the request that he reorganize the Department of Architecture to the end that the public may not be called upon to pay twice for the same service."

I have submitted facts and figures, offering as proof in every instance official records of the City and County, showing that but eight new school houses were contracted for in 1910 as against sixteen in 1909.

I have shown that the total contracts let on Schools, Hospital, Hall of Justice and Jail, were \$2,927,841.16 in 1909 as against \$1,043,789.60 in 1910; that the average monthly contracts let were \$243,928.43 in 1909 as against \$115,976.62 in 1910.

I have shown that the average monthly payroll of the Bureau of Architecture has been \$11,240.10 for 1909 as against \$12,474.35 for 1910, showing that the payroll of the Bureau, exclusive of rent, office expenses and supplies, has been 10.7 per cent on the work contracted for in 1910 as against 4.6 per cent for the work contracted for in 1909.

According to the figures submitted by the Bureau the number of inspectors has been increased from five in the early part of 1909 to 38 on October 1st, 1910.

I have shown that buildings are being planned by outside architects, the cost of which has not been included in the payroll of the Bureau of Architecture.

In view of the foregoing facts, I feel that I am amply justified in requesting that his Honor the Mayor be requested to "reorganize the Bureau of Architecture in order that the public may not be called upon to pay twice for the same service."

The Bureau of Architecture in their report to the Building Committee gave the following list as "Showing all work in Process of Construction on October 1st, 1910":

1. Spring Valley School.
2. Commercial School.
3. Adams School.
4. Denman School.
5. Hancock School.
6. J. Parker School.
7. Peabody School.
8. Garfield School.
9. McKinley School.
10. McCoppin School.
11. Holly Park School.
12. Clement School.
13. Sheridan School.
14. Longfellow School.
15. Farrago School.
16. Franklin School.
17. Barnett School.
18. Harrison School.
19. Cleveland School.
20. Oceanside School Yard.
21. Bryant School Yard.
- 22 to 29. S. F. Hospital (8 buildings in all).
30. Chemical Engine House No. 12.
31. Hall of Justice.
32. Jail.
33. North Beach Playgrounds.
34. Yerba Buena School Yard.
35. Bay View School Yard.
36. Dudley School Yard.
37. Park Police Station.
38. Ingleside Police Station.

In order to arrive at the total of 38 it was necessary for the Bureau to count the S. F. Hospital as eight buildings. It was necessary to include the five following school yards, viz.: Oceanside, Bryant, Yerba Buena, Bay View, Dudley, and also the North Beach Playgrounds. It was further necessary to include the Commercial School, which, according to the weekly report of the Bureau of Architecture (for week ended October 1st), as published in the Municipal Record of October 6, 1910, is stated to be "Ready for acceptance".

It was further necessary to include the F. McCoppin School which in the same report is described as follows:

"Building will be tested during coming week. Rooms cleared and ready to be occupied."

It was further necessary to include the McKinley Primary of which in the same report it is stated that:

"Heating and ventilating ready for testing; floors completed except wax finish; school furniture being delivered."

It was further necessary to include the Garfield School which in the report of the Bureau for week ending September 3rd, 1910, is stated to be:

"Completed and ready for acceptance."

It was further necessary to include the Ingleside Police Station, of which it is stated in the report of the Bureau of Architecture, for the week ending July 30th, 1910, is:

"The building is about completed and ready for acceptance."

It was further necessary to include the Park Police Station, which in the report of the Bureau for the week ending September 17th, 1910, was stated to be:

"Completed and accepted."

I do not pretend to be familiar with all the details of the work connected with the Bureau of Architecture, but the above inaccuracies in the report of said Bureau to the Building Committee of this Board show great discrepancies between the regular weekly official reports of said Bureau and the special report made for the purpose of attempting to refute the statements contained in my resolution.

PAUL BANCROFT.

Report prepared October 21st, 1910.

REPORT OF PUBLIC BUILDINGS COMMITTEE.

Adopted.

Whereupon, on motion of Supervisor Nelson, the foregoing report of the Public Buildings Committee was *adopted* by the following vote:

Ayes—Supervisors Deasy, Hayden, Healy, Herget, Kelly, Knowles, Loughery, McLaughlin, Minehan, Nelson, O'Dowd, Pugh, Walsh—13.

Noes—Supervisors Bancroft, Cutten, Murdock—3.

Absent—Supervisors Harris, Hocks—2.

Indefinite Postponement.

The following resolution, heretofore passed for printing, was taken up and on motion, *indefinitely postponed*:

Boiler Permit.

Resolution No. — (New Series). Granting permission, revocable at will of the Board of Supervisors, to Southside Light and Power Company to erect and maintain an engine and boiler of 500 horsepower in premises situate 120 Minna street, the same to be used for furnishing light, heat and power.

Final Passage.

The following matters heretofore passed for printing, were taken up *finally passed* by the following vote and numbered as follows, to-wit:

Engine and Boiler Permits.

Resolution No. 6805 (New Series). Granting permission, revocable at will of the Board of Supervisors, to P. and M. Garrayal to erect and maintain an engine and boiler of two horsepower in premises situate at No. 1334 Pierce street, the same to be used for furnishing power in bakery.

Ayes—Supervisors Bancroft, Cutten, Deasy, Hayden, Healy, Herget, Kelly, Knowles, Loughery, McLaughlin, Minehan, Murdock, Nelson, O'Dowd, Pugh, Walsh—16.

Oil Permits.

Resolution No. 6806 (New Series). Granting permission, revocable at will of the Board of Supervisors, to P. and M. Garrayal to erect and maintain a storage tank of not more

than 330 gallons' capacity in premises situate at 1334 Pierce street, for the purpose of storing therein crude petroleum, to be used as fuel under boilers in said premises.

Ayes—Supervisors Bancroft, Cutten, Deasy, Hayden, Healy, Herget, Kelly, Knowles, Loughery, McLaughlin, Minehan, Murdock, Nelson, O'Dowd, Pugh, Walsh—16.

Resolution No. 6807 (New Series). Granting permission, revocable at will of the Board of Supervisors, to Samuel Dusenberry to erect and maintain a storage tank of not more than 1500 gallons' capacity in premises situate south side of Eddy street, 137 feet 6 inches east of Larkin street, for the purpose of storing therein crude petroleum, to be used as fuel under boilers in said premises.

Prohibiting Cremation.

The following matter made a special order of business for 3 o'clock p. m. this day, was taken up:

Bill No. 1531, Ordinance No. — (New Series), as follows:

Prohibiting the cremation of dead human bodies within the City and County of San Francisco.

Whereas, the cremation of dead human bodies within the City and County of San Francisco is dangerous to life and detrimental to public health, therefore

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It shall be unlawful for any person, association or corporation, from and after the first day of July, 1911, to cremate, or cause to be cremated, the dead body of any human being within the City and County of San Francisco, exclusive of those portions of said City and County belonging to or under the exclusive jurisdiction of the United States.

Section 2. Any person, firm, association or corporation violating any of the provisions of this Ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not exceeding five hundred (500) dollars or by imprisonment in the County Jail for a period not to exceed six (6) months, or by both such fine and imprisonment.

Section 3. All Ordinances or parts of Ordinances, so far as they conflict with the provisions of this Ordinance, be and are hereby repealed.

Privilege of the Floor.

W. E. Lutz, president of the Odd Fellows' Cemetery Association, was granted the privilege of the floor and

addressed the Board, denying the truth of the statement that the operation of the crematory was insanitary and a menace to health. He requested that in the event of the passage of the bill prohibiting cremation that the time within which it becomes operative be extended for ninety days.

Joseph Winterburn, Treasurer of Odd Fellows' Cemetery Association, also addressed the Board, stating that if cremation was prohibited it would deprive the Association of its only means of revenue, and would put it out of business. He also stated that there was no immediate prospect of their building a crematory in San Mateo county on account of an agreement which said Association had with the owners of the Cemetery lands, who are paid a certain rate for each burial. He declared that the opposition to the operation of the crematory was due to the fact that the Association had refused to make certain unwarranted expenditures for street improvements.

Geo. Connolly, representing property owners, also addressed the Board, opposing the operation of the crematory for the reason that it was a detriment to district and retarded its development.

Hearing of Appeal Against Street Assessment. Twentieth Avenue, Between Clement and Lake Streets.

The matter of the hearing of appeal of property owners against assessment, warrant and diagram issued by the Board of Public Works to P. J. McGalligan, for the work of constructing sidewalks, cement corners, catch-basins, etc., on Twentieth avenue, between Clement and Lake streets, fixed for the hour of 3 p. m. this day was taken up:

Motion.

Supervisor McLaughlin moved that matter be referred to Streets Committee for hearing, if there was no objection on part of interested parties.

There being no objection it was so ordered.

UNFINISHED BUSINESS.

Garage Permit.

The following matter heretofore recommended to the Fire Committee and returned by said committee with the recommendation that same be *grantly passed* was taken up:

Resolution granting Bathin Real Estate Company permission, revocable at will of the Board of Supervisors, to erect and maintain a public garage on property situate at north side of Broadway, 80 feet west of Larkin street, in accordance with the provisions of ordinance No. 746 (New Series), and under the supervision and to the satisfaction of the Fire Marshal.

Privilege of the Floor.

H. F. Marshall, attorney representing protesting property owners, was granted the privilege of the floor and addressed the Board in opposition to the granting of the permit on the ground that the district was a residence district, would increase the fire hazard and would be dangerous to the lives of the children who lived in the vicinity.

Rev. John Knochke, pastor of the St. John's Evangelical Church, was also granted the privilege of the floor, and addressed the Board in opposition to the granting of the permit. He declared that the garage would be a menace to surrounding property and would depreciate values as well as endanger the lives of residents of neighborhood.

F. Gully, representing the Polk Street

Improvement Association, also addressed the Board in opposition to the permit, stating that a garage at the location sought would be a menace to the business of Polk street merchants.

Frank McGowan, attorney, representing the petitioners, was granted the privilege of the floor and stated that every precaution and safeguard would be provided against danger from fire and that the danger to life had been greatly exaggerated. He requested the final passage of the resolution.

Refused Passage.

Whereupon, the question being taken the foregoing resolution was refused passage by the following vote:

Ayes—Supervisors Hayden, Healy, Knowles, Minehan, O'Dowd, Pugh, Walsh—7.

Noes—Supervisors Bancroft, Cutten, Deasy, Hocks, Kelly, Loughery, McLaughlin, Murdock, Nelson—9.

Absent—Supervisors Harris, Herget—2.

(Subsequently during the proceedings Supervisor Nelson gave notice that at the next meeting he would move the reconsideration of the vote whereby foregoing resolution was refused passage.)

Final Passage.

The following Bill, heretofore recommended to the Licenses Committee and returned by said Committee with the recommendation that same be finally passed, was taken up and, on motion of Supervisor O'Dowd, finally passed by the following vote:
Imposing License on Automobile Trucks and Wagons.

Bill No. 1530, Ordinance No. 1381 (New Series), entitled, "Amending Section 1 of Ordinance No. 918, entitled, 'Imposing a license on trucks and wagons,' the provisions of which impose a license fee on automobile trucks and wagons."

Ayes—Supervisors Bancroft, Cutten, Deasy, Hayden, Healy, Hocks, Kelly, Knowles, Loughery, McLaughlin, Minehan, Murdock, Nelson, O'Dowd, Pugh, Walsh—16.

Award of Contract, Engraving Water Bonds.

Supervisor Minehan presented the following Resolution:

Resolution No. — (New Series), as follows:

Award to H. S. Crocker Co.

Resolved, That the contract for printing and delivering to the Clerk of the Board of Supervisors at the City and County of San Francisco on or before February 1, 1911, of 1125 Water Bonds for the sum of \$3250.-00:

And the printing of 43,875 additional Water Bonds to be delivered at such time or times as may be required by the Board of Supervisors, for the sum of thirty-seven and one-half ($37\frac{1}{2}$) cents for each additional bond, be and the same is hereby awarded to H. S. Crocker Company, as bid for and according to the specifications therefor.

His Honor, the Mayor, is hereby authorized to enter into the contract hereby awarded, and to approve the sufficiency of the sureties upon a bond in the sum of \$2,000.00 to be furnished by said H. S. Crocker Company for the faithful performance of said contract.

Minority Report.

Whereupon, the following minority report was presented and read by the Clerk:

San Francisco, Nov. 14, 1910.
To the Board of Supervisors:—As a member of the Printing Committee, I feel constrained to submit a minority report in the matter of the award of the contract for furnishing the engraved bonds for the Municipal Water Supply. The bids were as follows:

Myself-Rollins Co. (Security Bank Note Co.), \$16,331; A. Carlisle & Co. (National Bank Note Co.), \$16,571; E. A. Wright Bank Note Co., \$17,932; H. S. Crocker Co. (Republic Bank Note Co.), \$19,703; American Bank Note Co., \$26,500; Union Lithograph Co. (Western Bank Note Co.), \$33,023.

By the provisions of the charter, the award must be made to the lowest responsible bidder, although in stationery and printing it is provided that quality and quantity may be considered. By the opinion of the City and County Attorney "The determination as to who is a responsible bidder is not confined to the financial responsibility of a bidder, alone, but may involve other matters, such as the good faith of a bidder and his practical ability to do the work faithfully, skillfully and promptly."

The presumption is certainly in favor of the lowest bid, and to my mind no satisfactory showing has been made that the work would not

be properly done by the Security Bank Note Co. The award to H. S. Crocker & Co., involves an added expenditure of \$3372, which is sought to be justified on the ground that the Republic Co. has the better standing with Union Labor.

Extended inquiry developed the fact that none of the Eastern engravers were entirely satisfactory, Mr. Gompers including the Republic among the "unfair". It is admitted that the Security employ union men on the engraving, and the local representatives are a strictly union house. While not satisfied that the charter permits discrimination on such grounds, I do not see that a clear case has been made out, justifying an award on even that ground. In my opinion the only ground on which the award to the fourth highest bidder can be justified, is the conclusion that the H. S. Crocker Company is the lowest responsible bidder that can be relied upon to do the work, faithfully, skillfully and satisfactorily. This is a matter of judgment on which we may honestly differ. Not being satisfied of this, and being impressed with the great danger of departing from the strict requirements of the charter in the matter of awarding contracts I recommend the award to the lowest bidder.

Very respectfully,

CHAS. A. MURDOCK.

Motion.

Supervisor Hayden moved that all bids be rejected and that Clerk advertise for new bids.

Motion lost by the following vote:

Ayes—Supervisors Hayden, Knowles, Walsh—3.

Noes—Supervisors Bancroft, Cullen, Deasy, Healy, Kelly, Loughery, McLaughlin, Minehan, Murdock, Nelson, O'Dowd, Pugh—13.

Board of Public Works to Prevent Opening of Streets For Installing Steam Pipes Until Question as to Whether Franchise For so Doing is Necessary Has Been Determined by the Courts.

Supervisor McLaughlin introduced the following:

Resolution No. — (New Series), Requesting the Board of Public Works to stop immediately the further opening of streets and laying of pipe by the Equitable Light and Power Company and the Consumers' Light and Power Company, which is now under operation and which is intended to supply heat to the inhabitants of this city and county, this request being in accordance with an opinion rendered by the City Attorney, wherein the Board of Supervisors is advised that a franchise must first be secured from city and county before laying of pipe for the purpose of supplying heat can be proceeded with; also directing the Board of Public Works to issue no permits to said companies for the purpose of making connections with pipes already laid.

Privilege of the Floor.

F. D. Madison, attorney representing Equitable Light and Power Co., was granted the privilege of the floor and addressed the Board, declaring that the adoption of the resolution would seriously interfere with the business of the Company and would depreciate the value of its securities.

F. G. Carlewright, representing the Equitable Light and Power Co., also addressed the Board, stating that pending the decision of the Board the men employed by the Company had been laid off and would suffer the lack of employment if the Board insisted on the passage of a resolution.

C. Harris, representing hotel men, also addressed the Board, stating that the service to be furnished by the Equitable Light and Power Co. was urgently needed by certain hotels at this particular season of the year when the cold weather was setting in, and he urged that the Board do nothing to interfere with the progress of the work.

Walter O'Connell, representing Plumbers, also addressed the Board, opposing the passage of a resolution for the reason that it would deprive a number of men of employment.

T. Riordan, representing the Steam

Fitters, also addressed the Board, opposing the passage of a resolution.

R. P. Princhard, attorney representing Equitable Light and Power Co., also addressed the Board as to the legal question involved.

Motion.

Supervisor Murdock moved that the matter be *laid over two weeks*.

City Attorney to Institute Search of Title to China and India Basins.

On motion of Supervisor Loughery: Resolution No. 6948 (New Series), as follows:

Whereas, The attention of the members of this Board has been unofficially directed to a claim of ownership in the city, of those particular portions of the city front lands officially known and designated as China and Central Basins; and, it being a matter of municipal concern, in view of such claims, that the question of the City's title thereto, be speedily determined; now therefore be it

Resolved, That the City Attorney be and is hereby requested to immediately institute a thorough search of title to said lands and to take such legal measures to protect the rights of the city therein and thereto, if any such be found to exist, as he may deem expedient.

Ayes—Supervisors Bancroft, Cutten, Deasy, Hayden, Healy, Herget, Hocks, Kelly, Knowles, Loughery, McLaughlin, Mincham, Murdock, Nelson, O'Dowd, Pugh, Walsh—17.

Communication From Spring Valley Water Company, Stating Willingness to Sell Its Properties to City at a Fair and Reasonable Figure, But That It Cannot Name a Price Except Under Circumstances Which Will Warrant the Belief That a Sale Will Be Consummated.

The following communication was presented, read by Clerk and ordered referred to Public Utilities Committee:

San Francisco, Cal., November 28, 1910.

To the Honorable P. H. McCarthy, Mayor of the City and County of San Francisco, the Public Utilities Committee of the Board of Supervisors and the Board of Supervisors of the City and County of San Francisco.

Gentlemen:

Referring to Resolution No. 5809 (New Series), to your letter dated August 12, 1910, and to the letter of his Honor, the Mayor, to your Honorable Board, dated August 30,

1910, and to the subsequent negotiations between representatives of the City and County of San Francisco and representatives of the Spring Valley Water Company:

We have given this subject careful consideration since our last meeting, and before we meet again to resume negotiations we deem it appropriate to state conditions affecting the water supply of San Francisco, which should be more thoroughly understood if common ground is to be found on which we can co-operate with the administration and the citizens of San Francisco in accomplishing their desire to purchase all holdings directly or indirectly controlled by the Spring Valley Water Company.

Not long ago you made a thorough inspection of the properties of this company. We had hoped that the result of that inspection would be to remove prejudice and to correct misrepresentations that have so persistently been made for the last twelve years or more as to the resources of the company and their value.

In determining value, one of the most important elements to be considered is the quantity of water that can economically be developed from the holdings of the company, and the cost of developing water from such holdings as compared with the cost of any other source of supply.

The water supply of this city and the transbay cities has now become a national question. A commission has recently been appointed by the Federal Government to report on all matters affecting it. This commission is empowered to report not only on the quality of the water furnished by this company, but also the quantity of water which may be developed from its holdings. It is also empowered to report on all other sources of supply available for the city. This is the first opportunity presented to the people and the company to obtain the judgment of a competent and impartial tribunal on these questions, so vital to both. If our engineers are mistaken, we shall be glad to know it. If those who have been so long opposing the company have been mistaken, it will be well for the people to know the truth. If, however, we are right in our contentions, the community may then be willing to pay a price commensurate with the fair value of the property.

While, in determining value, supply is to be considered, demand should also be given its proper con-

sideration. There is a market in transbay cities for water which this company owns. Its development will enable us to avail of this market.

The 125,000,000 gallons, or more, of water per day that can be developed from properties now owned or controlled by this company it is estimated will suffice the City of San Francisco for more than half a century. The important element of "safety of supply" will be fully covered through the ownership of our peninsula reservoirs as relating to the safety of the water supply of this city, or through the ownership of the Arroyo Valle reservoir site or the Calaveras reservoir site as relating to the safety of supply for any transbay city. The combination of these two systems for a Metropolitan Water District, such as has been discussed, would be practically indispensable, and they will be absolutely essential when the existing supply is augmented from any Sierra source.

With reference to the quality of the water supplied by our company, it is not inappropriate to quote a statement of Dr. D'Ancona, then Chairman of the Hospital Committee of the Board of Supervisors, made in 1903, as follows:

"For the sake of the record I want to say that the Board of Supervisors a year ago directed the Board of Health to have the City Chemist and City Bacteriologist examine the waters of the Alameda Creek system. They started to have the waters of the entire system examined, but that proved to be too burdensome, and it seems to me that the people of the city, and the Spring Valley Water Works are entitled to the results of those examinations. They showed that the waters of the Alameda Creek system are of exceptional purity. It is a question whether any city in the United States has a water source that is hygienically as good as the water from the Alameda Creek system. I think the Spring Valley Water Works are entitled to that knowledge, and the people of San Francisco certainly ought to know that the water from the main source of the city supply is hygienically good and of exceptional purity."

It is a matter of public record that Dr. Rupert Blue has most highly commended the quality of the water, the examination preceding the report having been made by him while investigating matters affecting the public health in and about San Francisco.

In some degree the determination

of value is a question of judgment. No single element can determine value; but there are certain fundamental elements, the consideration of which is vital. It has been contended by the city that cost represents value. It is simply an element of more or less importance. Our works may have been built during a period of extremely high or low prices. Our properties may have been acquired at exorbitant prices. Property generally advances or declines in value depending upon many conditions, and a water supply is no exception. Structural parts depreciate in value, but in the last analysis the question of value is determined by the cost of reproduction.

Over forty years have been spent by the management in economically securing the best reservoir sites, the best sources of supply, riparian rights, rights of way, water sheds and everything that could suggest itself to a most able engineer. It does not require an expert on value to realize that property thus acquired must have enormously increased in value. Taking interest into consideration and deducting dividends, the cost of the properties we now control and could offer the city would greatly exceed \$45,000,000.

In his report dated February 18, 1908, City Engineer, Mr. Marsden Manson, stated:

"One other factor of moment which this office has not been able to consider is the value of the Alameda system as a permanent supply, which has only been brought out by continued use."

If Mr. Grunsky's estimate of value made in 1901-2 were adopted, and if known conditions relating to the elements of value mentioned in his report were brought down and applied to existing conditions, on his basis the value of property now in use in supplying the City and County of San Francisco with water would exceed the sum of \$40,000,000 and this amount does not take into consideration the value of properties not in use and the great potential values of these properties. The adviser to the City Attorney, Engineer J. H. Dockweiler, frankly stated, at the time of the last offer, that the value of the properties of this company to the city, if a sale were made, would exceed the sum of \$50,000,000. City Engineer Manson, about the same time, stated that the value of the company's property exceeded the sum of \$40,000,000.

Whatever difference of opinion may exist as to value, the value to the city is the amount of money

necessary to be expended to reproduce a system capable of rendering an equivalent service. The cost of bringing 54,000,000 gallons per day from Lake Eleanor and Hetch Hetchy, including interest during course of construction, is estimated at the sum of \$56,000,000. This makes no provision for nearby storage reservoirs as factors of safety. Our system is capable of a present daily delivery of more than 49,000,000 gallons and of an estimated potential delivery of more than 125,000,000 gallons per day. You can best determine the enormous saving that can be effected by the development of our supply as compared with any other source of supply.

The market value of the company's securities, while possibly an element to be considered, cannot be taken as a basis for determining the value of its properties. During the year 1896, and for many years prior thereto, the average market value of the shares of the Spring Valley Water Works was upwards of \$100, which is equivalent to \$50 per share for the stock of the Spring Valley Water Company. In 1897 the city administration inaugurated the policy of reducing rates to private consumers, and continued this policy until the total reductions amounted to approximately 37% from the rates prevailing in 1890, at the same time reducing hydrant rates from \$5 to \$1 per month. No allowance has ever been made by any Board of Supervisors for depreciation or contingent funds and proper consideration has never been given to increased operating expenses or to increased taxes. The result of this policy was to compel the company to seek redress from the courts, and from 1903 to the present time it has annually obtained an injunction restraining the enforcement of the rates adopted by the Supervisors.

In 1900 the Board of Supervisors passed Resolution No. 207, soliciting an offer of sale to the City and County of San Francisco of the property used, or capable of being used, for supplying water to the inhabitants of the city and county, which resolution contained the following:

"The Spring Valley Water Company is also requested to bear in mind that any over valuation of its water system will compel the people of San Francisco to look elsewhere for their water supply, and the withdrawing of San Francisco as a market for the sale of the company's water will reduce the value of the company's lands to what they are

worth for agricultural purposes merely."

The company's answer contained a suggestion for a board of arbitration to determine the value of the property, but this was not accepted by the city.

As a result of this treatment, not only was the market value of the securities of the company seriously affected, but the financial result to the stockholders for a period of $7\frac{1}{2}$ years prior to the first day of May, 1908, was an average net dividend of only \$1.35% per annum, assuming the par value of the stock to be only \$50 per share; that is to say, the stockholders received dividends during those $7\frac{1}{2}$ years amounting to only 9 $\frac{1}{2}$ cents per share per year.

In any offer that the company may make, these matters should receive the consideration to which they are entitled.

If consideration is given to such elements of value as cost of reproduction, strategic value of location, physical characteristics, ownership of all available reservoir sites, ownership of riparian rights and rights of way that it would be difficult, if not impossible, to acquire at the present time, rapidly growing demand for water in nearby localities, and other factors, no estimate that has been placed on this property is commensurate with its value to the City and County of San Francisco.

Last year, when the property was subject to litigation, limitations and conditions which no longer exist, we offered as a compromise to sell the property then owned for the sum of thirty-five million dollars. The conditions under which that offer was made and of the property itself have changed since the date of the offer in many important particulars, and among them the following:

1. A sale at that time would have ended the litigation then pending between the city and the company, which the company has since been forced to continue through the courts.

2. The Clough suit: We have acquired all the stock of the Washington and Murray Township Water Company, and any embarrassment arising from a minority ownership in that company has been removed.

3. Great stress was laid in Washington and elsewhere as to the limitation on the quantity of water which this company might convey from its transbay sources. No such limitation now exists.

4. Suits then pending affecting the Company's right to avail of a source, from which it obtains a large daily supply of water, have been adjusted.

5. More than fifteen thousand acres of property have been recently acquired which are now under the control or ownership of this Company. The acquisition of this property greatly increases the amount of water capable of development, perfects reservoir sites, protects water sheds and removes the possibility of conditions arising that might have been embarrassing.

6. Financial requirements for protecting and developing our properties were not then easy to arrange, but plans have now been perfected whereby the Company is enabled to further develop its sources of supply. The Calaveras dam is now in course of construction.

7. The company can now market a large additional supply, thus increasing its revenue.

8. While our previous offer was pending, it was stated by representatives of the administration that the properties of the Company could not be developed to supply in excess of sixty million gallons per day. We were as confident then as we are now that proper development will enable them to furnish more than one hundred and twenty-five million gallons per day, but it was not possible for us to bring this truth home to the citizens who were then and are now vitally concerned in knowing the extent to which the city may safely rely upon our properties as a source of supply. It may safely be assumed that the average citizen accepted the assurance of those representing the municipality regarding the limit of our ability to furnish water. If the statements made by the representatives of the last administration that the output of our properties is limited to sixty million gallons per day shall be found to be inaccurate and that they will produce greatly to exceed that quantity, it cannot but have a marked effect in the minds of the voters concerning the value of the properties and the desirability of their acquisition. Information which will set these questions at rest will undoubtedly be furnished in the report of the commission of federal engineers.

9. Last January our plant could deliver and distribute in San Francisco only thirty-five million gallons per day. As a result of work long in progress and now completed, we are distributing forty million gallons per day.

The great value of these changes in conditions is self evident.

At this time we are in a position to sell all the properties embraced in our previous offer and all property since directly or indirectly acquired. This condition cannot long continue. Financial reasons require us to segregate

properties not required for a water supply, and the transbay situation may create conditions that will make it impossible for us to offer our water properties free from contracts and obligations which do not now exist. It is not inappropriate to remind you here that these properties are very valuable not alone for a water supply, but they possess unexampled possibilities for a magnificent park system which their subdivision would render altogether impracticable.

We are now willing to sell all properties at a fair and reasonable price, and hope that negotiations now in progress may be characterized by a spirit of fairness on each side with a

view to an agreement upon a price which the city can well afford to pay and which the stockholders may reasonably accept. As we have explained to you, we cannot, considering past experience, name a price except under circumstances which will warrant the belief that a sale will be consummated.

Respectfully,

SPRING VALLEY WATER COMPANY.

By W. H. BOURN, President.

ADJOURNMENT.

There being no further business, the Board at the hour of 5:05 o'clock adjourned.

W. R. HAGERTY, Clerk.

Approved by the Board of Supervisors, December 5, 1910.

Pursuant to Resolution No. 3401 (New Series) of the Board of Supervisors of the City and County of San Francisco, I, W. R. Hagerty, hereby certify that the foregoing is a true and correct copy of the Journal of Proceedings of said Board of the dates thereon stated, and approved as above recited.

COMMUNICATIONS AND REPORTS FROM CITY AND COUNTY OFFICERS.

Communications and Reports from City and County Officers were received and referred as follows:

To the Finance Committee.

Communications—From Board of Public Works, transmitting copy of statement showing disposition of claims allowed for pipe damaged in transit.

Also, Recommending that \$4,000.00 be made available out of the General Fund for the purpose of continuing work in Hetch Hetchy Valley.

From City Attorney, advising that he knows of no amendment of Act of Legislature of State of California of 1907, Chapter 181, which requires that one-half of the fines collected under the Pure Food Law shall be paid to the State Treasurer.

Also, advising as to the procedure and recommending the refund to Frank W. Aitken of \$1,275.00 taxes paid by him as purchaser at tax sale on August 20, 1909.

To the Fire Committee.

Communications—From Board of Public Works, recommending that the bond of the Sibley Grading and Teaming Company for the privilege of blasting on the south side of Market street, between Eighth and Ninth streets be fixed in the sum of \$20,000.00.

Also, transmitting report of City Engineer, recommending that request of Fire Department for the repair of fire cistern at Stockton and Clay streets be denied.

From Board of Education, protesting against erection of a garage adjoining Redding School, on Pine street, between Larkin and Polk streets.

To the Hospital and Health Committee.

Communication—From Board of Health, transmitting and recommending the passage of an ordinance regulating food and food products and prohibiting the artificial coloring thereof.

To the Hospital and Health and Fire Committees.

Communication—From Board of Health, stating that hearings will be had in the matter of condemnation shack buildings in vicinity of Parker avenue and Geary street on December 2 and December 16, 1910.

To the Printing Committee.

Communication—From Warden of the City and County Hospital, with requisition for one Standard Visible

Typewriter and one Underwood Typewriter with 14-inch carriage.

To the Public Buildings Committee.

Communications—From Board of Public Works, recommending that \$6590.00 be provided out of sale of school bonds, issue of 1904, for the doing of necessary yard work at Sutro Grammar School building.

Also, recommending that \$9000.00 be made available for the construction of a balustrade, steps, road and yard work at the Infirmary, Relief Home.

From Department of Elections, requesting that quarters adjoining Auditor's office be put in condition for the use of the Commissioners and their clerks.

From Board of Public Works, submitting report of estimate of painting and enameling dado six feet high on walls of the new Infirmary Building and ceilings of front entrance hall and stairway in the sum of \$1457.00.

Also, transmitting progress report for week ending November 26, 1910, on plans, specifications and other work on buildings to be erected under bond issue.

From Board of Education, requesting that \$16,000.00 be set aside out of bond issue money to complete yard work at Clement School.

Also, requesting that \$6,250.00 be set aside for the equipment of the Sheridan School.

To the Streets, Sewers and Parks Committee.

Communications—From Board of Public Works, recommending that \$34,000.00 be made available out of the proceeds of sewer bonds, issue of 1908, for the construction of sewers and appurtenances in Section A of the Ingleside Outlet Sewer.

Also, recommending that the City Street Improvement Company be granted an extension of sixty days' time from and after December 25, 1910, within which to complete contract for constructing artificial stone sidewalks on Larkin street, between McAllister street and Golden Gate avenue.

Also, recommending the ordering of the following street work, the expense thereof to be assessed in whole or in part on private property, to wit:

That eight and eighteen-inch ironstone pipe sewers with appurtenances be constructed in the crossing of Eleventh avenue and Moraga street and that said crossing be graded to official line and grade.

That eight, twelve and fifteen-inch ironstone pipe sewers with appurtenances be constructed in the crossing of Anza street and Twenty-fifth avenue, and a twenty-four-inch iron-

stone pipe sewer with appurtenances in Anza street, from Twenty-fifth avenue to a point twelve feet easterly from Twenty-fourth avenue.

That eight, fifteen and eighteen-inch ironstone pipe sewers with appurtenances be constructed in the crossing of Clement street and Thirty-fourth avenue; that eighteen-inch ironstone pipe sewer with appurtenances be constructed in Clement street, between Thirty-third and Thirty-fourth avenues, and eight and eighteen-inch ironstone pipe sewer in the crossing of Thirty-third avenue and Clement street.

That a twelve-inch ironstone pipe sewer with appurtenances be constructed in the crossing of Geary street and Thirty-fifth avenue.

That twelve and fifteen-inch ironstone pipe sewers with appurtenances and eight ironstone pipe culverts and a basalt block pavement be constructed in King street, between Second and Third streets.

That eight and twelve-inch ironstone pipe sewers with appurtenances be constructed in the intersection of Upper Terrace and Clifford street.

That eight and ten-inch ironstone pipe sewers with appurtenances be constructed in Ashbury street from its intersection with Clifford street to Clayton street.

That eight twelve and fifteen-inch ironstone pipe sewers with appurtenances be constructed in the crossing of Tara street and Geneva avenue, and a fifteen-inch ironstone pipe sewer with appurtenances in Tara street, between Geneva and Seneca avenues, also that fifteen-inch ironstone pipe sewers with appurtenances be constructed in the crossing of Seneca avenue and Tara street and a fifteen-inch ironstone pipe sewer with appurtenances in Tara street, from the southerly line of Ocean avenue to a point 22.25 feet at right angles northerly therefrom.

Also, Recommending that grades be changed and established at certain points and elevations on Texas, Mariposa and Twenty-second streets.

Also, transmitting copy of specification providing for the construction of sewers and appurtenances in Section A of the Ingleside Outlet Sewer.

Also, recommending that the bond of Oscar S. Levy, exacted for the privilege of blasting in various parts of the City in the matter of laying high pressure pipe be fixed in the sum of \$10,000.00.

Also, recommending the full acceptance of the roadway of Twenty-third street, from the westerly line of Douglass street to the easterly line of Hoffman avenue.

Also, recommending the expediency of performing the following street work, the expense thereof to be assessed in whole or in part on private property, to wit:

That eight and twelve-inch ironstone pipe sewers with appurtenances be constructed in the crossing of Fulton and Ashbury streets.

That granite curbs, artificial stone sidewalks, ironstone pipe culverts and a bituminous rock pavement be constructed in the crossing of Masonic avenue and Turk street.

That granite curbs, artificial stone sidewalks, basalt block gutters and a basalt block pavement be constructed in LeRoy place, from the northerly line of Sacramento street, to the northerly termination of LeRoy place.

That artificial stone sidewalks be constructed in Filbert street, between Buchanan and Webster streets.

That granite curbs and a bituminous rock pavement be constructed in Lake street, between Twelfth and Thirteenth avenues.

That granite curbs and an asphalt pavement be constructed in Highland avenue, between Mission street and Holly Park Circle.

Also, recommending the full acceptance of the roadway of Noe street, between Jersey and Twenty-fifth streets.

Also, transmitting report of City Engineer advising that it is not possible for Board of Public Works to order construction of sewer along San Bruno road under public contract because of the low assessed valuation of the property, but said work may be done under private contract by property owners.

Also, advising that plans and specifications for the construction of sewers and appurtenances in the Sunnyside District will be completed early in December, 1910, and will be immediately approved and submitted to the Supervisors, with the recommendation that an ordinance be passed setting aside the money and ordering the work.

Also, transmitting report of City Engineer advising that there is no objection to granting Stone and Van Burzen permission to construct a four-inch pipe line across Baker street, at the southerly line of Lewis street, from property of Rudolph Hermann Company to property of petitioner.

NEW BUSINESS.

Adopted.

The following resolution was *adopted*:
Recorder to Cancel Certificate of Sale No. 399.

On motion of Supervisor Walsh:
Resolution No. 6985 (New Series), as follows:

Whereas, The Auditor and Tax Collector, in joint communication filed November 17, 1910, certify that the property described as

Lot on west line of Sixth avenue 150 feet south from Lake street, thence south 4 feet 6 inches by 120 feet;

Outside Lands Block No. 77, assessed in the name of San Francisco Land Company, was sold to the State of California on the 30th day of June, 1905, for the delinquent taxes for the year 1904, under certificate of sale No. 399 and deed No. 399, issued to the State of California by the Tax Collector on the 2nd day of July, 1910, and recorded July 15, 1910; that the assessment for said year 1904 and for all subsequent years, viz., 1905, 1906, 1907, 1908, against the above described property, are erroneous assessments, for the reason that the property does not exist:

That the property on the west line of Sixth avenue, 150 feet south from Lake street, is assessed in the name of John Marshall, and is described as 25 feet by 120 feet, with all taxes levied thereon paid:

Resolved, That the Recorder be and is hereby directed to cancel certificate of sale No. 399 of June 30, 1905, and deed No. 399 of July 2, 1910.

Further Resolved, That the Auditor be and is hereby directed to cancel the erroneous assessments for the years

1905, 1906, 1907 and 1908, now standing open on the Assessment Rolls against the said lot on the west line of Sixth avenue, 150 feet south from Lake street, south 4 feet 6 inches by 120 feet, Outside Lands Block No. 77.

ROLL CALL FOR PETITIONS FROM MEMBERS.

Testimonial to Mme. Luisa Tetrazzini.

The following communication was presented by the Mayor and read by the Clerk:

San Francisco, Cal., December 27, 1910.

To the Honorable,

The Board of Supervisors,

No. 64 Eddy St., City.

Gentlemen: Through the immeasurable generosity of a distinguished woman, today the most famous and accomplished vocalist in the world, the city of San Francisco has been privileged to become the recipient of an honor without parallel, and as a result thereof has had untold lustre and credit added to her fair name throughout the universe.

I refer in this instance to the public song recital of Madam Luisa Tetrazzini, the greatest singer alive today, who on Christmas Eve last appeared in the center of our city in the midst of an unprecedented throng and there gave to the masses of our people the inestimable advantage and benefit of hearing her peerless voice. This remarkable event has been heralded throughout the world and has placed the name of San Francisco upon the lips of every community, at

home and abroad, as the place selected by the greatest diva of the times for a magnificent bestowal upon a music-loving public. The event has given to San Francisco the most noteworthy and greatest impetus to her fame recorded in her history, fraught as it is with the thought that ours is a city of marvelous climate that would permit of such a wonderful event on Christmas Eve, and likewise carrying forth the true idea that this is a community of pleasure-loving, art-loving and music-loving people, deserving of such a gift from the world's greatest artist. In imminent risk of losing her matchless voice, Madam Tetrazzini, appreciating the fact that San Francisco was first to greet and applaud her magnificent talent, gave to the people of San Francisco, through the agency of her famous voice, her heartfelt message of affection and appreciation. The poorest and most humble of our citizens were enabled to hear this wonderful singer who greeted them in the open streets of their own city with the sky for the canopy of her theatre and the great steel structures for her scenic settings. Then and there a priceless and gorgeous diadem was added to the crown of San Francisco's greatness.

In view of the foregoing facts, there can be no question but that this community owes to Madam Tetrazzini a befitting expression of its appreciation and its profound gratitude, and, although we can but feebly convey our message of thanks, I believe that I speak for our entire people when I say it is our earnest desire in some manner to show Madam Tetrazzini we are not unmindful of her wondrous gift to us, or of her inspired generosity.

I have the honor as the Mayor of this city, and as the presiding officer of your honorable board, to request by this means in view of the foregoing that some action be taken within your discretion which shall quickly provide an appropriate token or memento that may be presented to Madam Tetrazzini as an earnest of

our sentiment, and as a memento that may be preserved by her throughout her lifetime, bespeaking the affection in which she is held by the people of San Francisco. I recommend that this matter be sent at once by your honorable board to the proper committee, with instructions for the immediate carrying out of a plan, befittingly to acknowledge the splendid gift which Madam Tetrizzini has bestowed upon our citizens on Christmas eve, the most memorable in our history.

Yours very sincerely,

P. H. McCARTHY,

Mayor of the City and County of San Francisco.

Supervisors McLaughlin and Pugh noted present.

Resolutions of Gratitude and Appreciation.

Whereupon, the following resolutions were presented by Supervisors Murdock and Hayden respectively:

Whereas, prompted by the love of a generous heart for the city and its people, Mme. Tetrizzini, on Christmas eve, under the canopy of California's blue sky, poured forth in soaring song her glorious voice thrilling with its power and beauty the hearts of unnumbered thousands who had never heard, and otherwise might never have heard her, therefore be it Resolved:

That we, the chosen representatives of the people of San Francisco, acting in their behalf, hereby most sincerely and most earnestly thank her for the signal favor shown us. We recognize in the generous act the spontaneous outburst of true affection, which spurning risk of injury to her most precious possession, a voice beyond compare—induced her to give to those she truly loved the most acceptable of gifts—a part of herself.

We beg to assure her that, however far she may wander from the city that long has loved her, she will not be beyond the tender regard and deep interest of its people. Her memory will always be fresh in our hearts, and her generous greeting at Christmas, 1910, will be handed down as one of the loveliest incidents in the history of the city.

Ordered referred to Finance Committee.

Whereas, Madame Luisa Tetrizzini generously contributed to the enjoyment of San Francisco by the public rendition of appropriate songs at an open air concert at Lotta's Fountain on Christmas eve, where thousands of our citizens listened in rapture to

her melodious strains, now therefore,

Resolved, That the Board of Supervisors of the City and County of San Francisco hereby express the universal appreciation of the people of this City for her most kindly contribution to their pleasure, and that they will ever cherish her expression of affection to the City in grateful remembrance; and be it further

Resolved, That this Resolution be engrossed and presented to Madam Tetrizzini; and also,

Further Resolved, That His Honor, the Mayor, be authorized to prepare an appropriate souvenir in gold engraved with the words "Presented to Madam Luisa Tetrizzini by the People of San Francisco, California, as an expression of their love and affection, Christmas Eve, 1910."

Ordered referred to Finance Committee.

Motion.

Supervisor Kelly moved that a Special Committee of four be appointed to act in conjunction with Finance Committee for the purpose of carrying out the purposes expressed in the foregoing Resolutions.

Motion carried.

Appointment of Special Committee.

Whereupon, his Honor, the Mayor, appointed Supervisors Murdock, Hayden, Pugh and Loughery to act on said Committee.
